BOSTON BRAVES NOW WORLD'S CHAMPIONS

Fourth Straight Victory Over Mackmen Wins Title and Sets New Record in World's Series.

Fenway Park, Boston, Oct. 13.—The Boston Braves, National league champions, are the new world's champions in baseball.

By their fourth straight victory over the Philadelphia American leaguers this afternoon. Stallings' men not only captured the championship but set a new record for the world's series. No other team has ever taken the title in an unbroken string of victories.

Rudolph pitched a masterful game, winning his second contest of the series today. The Philadelphians could not catch his elusive slow ball when hits would have sent runs over the plate. The Bostons outgamed and outplayed their opponents in every department of the game. They clinched their victory in the fifth inning after two men were out with Rudolph's single, Moran's double and Evers' solid blow to center. It was the first time that a world's series has been won in four straight games and after the last man was out the Athletics rushed over and congratulated their rivals.

The spectators went mad with joy and paraded the field singing and cheering.

Boston's Battle Cry.

"The world's championship in four games" was the triumphant cry of the Boston Braves, champions of the National league as they swung their battle formation against the Athletics today in the fourth game of the world's base ball series.

"We will win today and end the series," said Manager George Stallings, as he took his seat on Boston's bench. "Rudolph is primed to carry us to final victory. I said we had the best team in base ball and we have proved it."

The pennant winners of the American league fought today in their last line of entrenchments. A defeat meant the passing of the big title in base ball to Boston.

"We are ready to make the fight," said Shortstop Jack Barry, of the Athletics, "and while we know that we must take four straight to win the series, still I think it can be done."

The tall Indian, Bender, was ready for the pitching mound and the veteran southpaw, Eddie Plank, said he was in shape to take up the hurling burden. The day was suited to the Indian's service. It was a day of shadows from passing clouds. Bender's speed is most effective on dark days. There was a

German Ambassador Issues Statement Emphasizing the Berlin Claim.

NEUTRALITY OF BELGIUM ISSUE

Says Allies Did Not Intend to Respect It from the First.

Washington, Oct. 13.—Count von Bernstorff, German ambassador here, today issued a statement in connection with a telegram from Berlin announcing the finding in the archives of the Belgian general staff at Brussels by the German military authorities of documents which, it was claimed by Berlin, showed that details of the plan for landing an expeditionary English force in Belgium had been provided for long before the war.

The statement follows:

"The German ambassador drew special attention today to the telegram which came from German headquarters. This telegram proves the German contention that the allies did not intend to respect Belgian neutrality. It even

Today's War News Given in Summary.

Martial law has been declared throughout the Union of South Africa as a result of the discovery of a rebellion in the northern part of the cape province, which adjoins German Southwest Africa. Lieut.-Col. Maritz, a Boer officer, together with a number of his officers and men, has gone over to the German forces of the German protectorate and is in rebellion against the government of the Union.

The official statement issued in Paris this afternoon declares that the allies are making progress along the entire line of battle.

It has been decided to remove the Belgian government to France. King Albert, however, will remain with his troops in the field. Some of the officials of the Belgian government and the members of the diplomatic corps accredited to Belgium already have left Ostend for Havre.

The Germans are reported to have occupied Ghent and yesterday a German aviator dropped bombs on Ostend. The Germans are continuing their endeavors to persuade the civil population of Antwerp to return to their homes; otherwise there is little news of the actual situation at this Belgian port now in the hands of the Germans.

The eastern arena of the war has recorded no particular activity other than continued preparation for a decisive combat in Russian Poland along a battle front which will extend from Kalisz, to Lodz, to Piotreko, to Kielce, and to Rusk, in Galicia. Germany claims to hold all the western part of Russian Poland, with the exception of Warsaw, and it is becoming clear that the German military operations in the eastern theater are being concentrated in Poland.

Vienna declares that the entire Russian force investing Przemysl has been withdrawn. Russia makes no reference today to the situation at Przemysl, but it is reported that Russian forces are continuing to advance in East Prussia and that the soldiers of Emperor Nicholas hold the entire district of Lyck.

The Kaiser Wilhelm canal, according to an Amsterdam report, has been closed to ordinary traffic for the duration of the war.

Prince George of Servia, brother of the crown prince, is reported to have been mortally wounded. Prince Oleg, son of Grand Duke Constantine of Russia, has died of wounds received in battle.

There has been a brief armistice at Kiao Chow, China, to bury the dead. The governor of this German territory is endeavoring to arrange for the departure of all non-combatants remaining in Tsing-Tau.

Berlin, Oct. 13, (Via wireless to Sayville)—Information given out for publication today by the German officials says:

"The rapid advance of the Austro-Hungarian troops along the river San resulted October 11 in the entire withdrawal of the Russian investing force from Przemysl, Galicia, which was immediately occupied by Austrian relief troops.

"The retreating Russians everywhere were strongly attacked. An attempt on their part to cross the river near Sieneawa and Lezajsk gave the Austro-Hungarian troops an opportunity to take a large number of prisoners. These as yet have not been counted."

SECRECY VEILS THE MASSING FOR COMBAT

London, Oct. 13.—1:15 p. m.—All eyes today are turned toward the eastward where under conditions of strict secrecy, the Teutonic allies and the Russians are preparing to engage in what may prove one of the most decisive combats of the war.

Evidence is accumulating to show that this gigantic conflict will be determined in Russian Poland, and the only question disturbing British experts is which side has chosen the battle ground.

Berlin admits having withdrawn from the Niemen river and at the same time discounts the whole movement in that region as being of no strategic importance. It is now clear that Russia has abandoned the narrow point in Galicia between Przemysl and Cracow, Russian forces having virtually occupied all of Galicia with the exception of these two places.

Petrograd claims this operation is due to strategic reasons, while Vienna maintains that rejuvenated Austrian armies have relieved the Przsmysl fortress and driven the invaders out. It is questioned that the more or less demoralized Austrian forces, stiffened by German reinforcements, have resumed the offensive, but there is no information here to indicate the Russian retirement is anything in the nature of a rout resulting from vigorous fighting.

Whatever may be the intention of the armies operating on the ends of the great Russian battle front, it is clear that these movements have paled into insignificance by the tremendous advance in the center. Broadly speaking, this is now the position of the antagonists awaiting the world to open the engagement. The main German armies in Russia are moving toward the Vistula river on a north and south front extending through Pieoterkow, 90 miles southeast of Warsaw, Kielce and Busk, on the Bug river, 30 miles east of Lemberg. To the left of this army between Lodg and Kalisz is another German force and on the right of the main German army is an Austrian force.

The bulk of the Russian troops are on the east bank of the Vistula but a portion of their forces are still on the west side of the river. The nature of the country makes it probable that the center of the battle line will be between Sandomir and Ivangorod, both on the Vistula river, and about sixty miles apart.

In order to take up these positions the Germans have been compelled to abandon strong positions along the river Warthe and avail themselves of the transportation facilities of Russian railroads, which are comparatively poorer than they have been accustomed to. The Russians are described as keen to engage the enemy in a country of their own choosing and near the base of their supplies.

The Germans are said to be still retiring in the direction of East Prussia, and in Petrograd there is a report of a Russian victory near Raczki, midway between Augustowo and Suwalki, which resulted in the capture of several German batteries sent from Koenigsberg.

Berlin declares that all of the western part of Russian Poland is now in the possession of Germany and that every place west of the Vistula, with the exception of Warsaw, is in their hands. It would appear to be a fact that no heavy engagements yet have been fought in this region, most of the fighting being between screens of cavalry.

Should the Austro-German forces suffer defeat along the battle front now forming, the way would be opened, it is being argued in London, for the invasion of Silesia, which next to the Rhine provinces, is the richest district of Germany. But it is not anticipated even in the event of their victory that the Russians will advance with any great speed. The topography of the country and the lack of transports precludes the possibility of anything like the German sweep through Belgium.

Russia suffered their most severe marine loss of the war in the sinking of the cruiser Pallada, which has been torpedoed by a German submarine in the Baltic. In every theatre of the war Germany evidently is resuming the offensive with unparalleled vigor and British naval observers are inclined to expect some co-operative display of activity by the German fleet.

Along the battle line of the Aisne the very brief official communication given out in Paris declares that what little change there has been in the situation favors the allies. The chief alternation in this line, however, seems to be its disposition to stretch toward the shores of the channel.

A most interesting bit of news from the western front is found in the reports from various sources that several of the forts around Antwerp are still occupied by the defenders. If this is true, it is argued here, that possibly the expected reinforcements for the German right wing may not be sent forward in time.

Reports also continue to reach London that the great activity of the German vavalry near Lille is a screening movement to cover the retreat of the army of Gen. von Kluck. Such a retreat is said even to be under way to the north and to the northeast.

WAS MISQUOTED, SAYS COLEMAN

Washington, Oct. 13.—Secretary Garrison said today that Capt. Coleman, U. S. A., charged with discussing the European situation in violation of the president's neutrality order, had voluntarily explained that he was incorrectly quoted in the newspapers.

Captain Coleman admitted having talked with newspaper men upon his return from Europe recently, but disclaimed responsibility for the language attributed to him. He was quoted as saying that high officials were responsible for alleged atrocities committed by German soldiers.

Secretary Garrison has written the officer asking whether he received and read, prior to his arrival in New York recently, a copy of President Wilson's order to army and navy officers to refrain from publicly discussing the European war. Secretary Garrison said he would await a reply before taking any action.

BLOCKS BRING MEMORY BACK

New York, Oct. 13.—An elderly woman suffering from loss of memory, was identified last night by physicians in Flower hospital by using children's blocks with numerals and the letters of the alphabet on them. Late Sunday the woman was found wandering in Central park. She was unable to tell her name and address.

A set of blocks from the children's ward was placed on a table before the woman. Physicians pointed at each letter telling the woman to try to spell her name. When they came to "F" her eyes brightened and she said her surname began with that letter. Slowly she spelled out "Ellen Flanagan." Then numerals on blocks were shown her and with them and the alphabetical blocks the physicians learned her street address in Brooklyn.

GERMAN DESCRIBES A NIGHT ATTACK

Wounded Man in the Guard Corps Tells of Sharp Fighting.

(Correspondence of the Associated Press.)

Berlin, Sept. 22.—Carl Diem, general secretary for the Olympic games, who, as earlier cabled, was wounded in the fighting before Paris, has sent to the Lokal Anzeiger, from the hospital, the following letter describing a night attack by troops of the guard corps:

"After the battles near the village of Voulpaix August 29 and 30, our regiment had a rest day, then marched its thirty miles September 1 and the same distance September 2. The third day we seemed to have caught the enemy and were incessantly on the move until late at night, deploying and taking up various positions. We failed to catch him, however, and made camp disappointed and utterly exhausted. The long desired field kitchens, our "goulash cannon," as the soldiers name them, had just appeared, steaming deliciously, when we got word that the enemy had occupied the village of Marsaux, a few miles away, and entrenched. Several companies of our regiment were told off for the assault, some against the village, the others for a flanking attack. Daylight had long vanished when we marched out.

"'Unload rifles!' was the first command. Not a pleasant command for the infantrymen—to take the cartridges from his beloved rifle, now of no more use to him than a feather until he gets breast to breast with the enemy. But what is the use—orders are orders and in night fighting this order is particularly called for if comrade is not to shoot comrade, and the cartridges rattle from his magazine.

"We march out through the still September night, the moon lighting our way, but lighting us as well.

"We leap a couple of ditches, burst through the hedges and fences and labor up the steep slope of a ploughed field, the companies moving forward in complete silence. Suddenly when we are about a hundred yards from the brow of the hill, it rains bullets, most of them luckily going high. The field fairly seems to spew rifle balls. The tension is slackened. No command is needed; there is the enemy. Bayonets are fixed and the platoons deployed in an instant and with a 'hurrah' the men charge forward against the enemy. These disappear, however, falling back on the real position, the village itself. It is 40 yards away, this charge takes from our overtaxed lungs every last atom of breath.

"The silhouette of the village stands out dark before us and its walls spray out lead and fire. The church spire spits out sparks like a fireworks display piece. Long streams of fire playing from every aperture and around our ears whistles and whizzes the hail of steel. We trip over an unsuspected wire, splash headlong into a ditch full of water, climb the churchyard wall. House after house is taken with the bayonet, house after house bursts into flames, then pursuit continues through the village and for several miles beyond. It is almost dawn before the exhausted troops come to rest and fling themselves down to sleep, rifle in hand and without troubling themselves to unsling their heavy packs from their backs. Such a charge with empty rifles, such a German hurrah the enemy cannot stand against, cannot themselves reproduce.

"How often have I laughed to myself at the youngest of our officers when he delivered his naive lectures to the men and wondered what respect his platoon of reservists, grown men, five to seven years his senior, would have in real battle for his twenty irresponsible years. In the battle on the Marne, the bloodiest of the war to date, I lay wounded among comrades whose voices were already still and watched his platoon go into action on the left flank A line of French trenches spit fire from machine guns, rifles and artillery and against it our men charged forward to certain death. At their head our youngest lieutenant, laughing as usual, led the way in a whirlwind advance by rushes, his dwindling squad following him devotedly until the bullets took him.

"Our next youngest lieutenant was unpopular, owing to his biting, scathing tongue, always rasping the sensibilities of the men. And yet we all came to love him. Once when we seemed to be sitting in a gigantic cornpopper of artillery hail against which no umbrella could protect, this tongue of his usually so scathing, kept us in roars of laughter while old Brother Break-Bones swung his iron flail above our heads. I saw him, too, that day on the Marne lying still and white beneath the pines.

"The third officer—a reserve officer, was his exact opposite. He rarely had a word to say and silent as usual, on that day at Voulpaix when we couldn't make out whence the enemy's fire was coming, he stood erect upon a wall in the full fire. We pulled him down with a broken leg, but not before he had pointed out to us the enemy.

"The eldest of our lieutenants was also a reserve officer. He knew every little kink of soldering. He was equal to every emergency. Before we marched out he helped the inexperienced to make their wills. He, too, was ready, I am sure, when on that bloody sixth of September his life went out like so many others.

"And our captain with the golden, honest heart and the celebrated name—he knew every one of the 270 men entrusted to him, the circumstances and the duty for which every individual was fitted. Never during the entire campaign have we run out of bread and every day, with few exceptions, we had our two warm meals. For that we had to thank his unwearying care. And when we had our baptism of fire from the artillery—we lay unprotected in a wood and could not stir—he walked up and down before us, calmly puffing at his pipe and staking his life for no other purpose than to give us courage. For him, too, was the battle on the Marne his last day. His own leg broken and with a gaping wound in his breast, he bound up the head of the bugler lying beside him and murmured, 'poor youngster, poor youngster.' He was buried the next day. Tears are not often shed in the field, but his little hillock was damp."

The Store That Does Things

HOLDS FATE OF TWO-CENT FARE

Much Hinges on Decision in the West Virginia Rate Case.

Washington, Oct. 13.—The fate of scores of two-cent passenger rates rest upon the outcome of arguments today before the supreme court over the validity of the West Virginia two-cent passenger rate law.

One of the points at issue is whether a state may compel railroads to carry passengers at a non-remunerative rate allowing them to make up their loss by increased charges on freight business. Technically only the rates on the Norfolk & Western railway are concerned, but the decision is expected to fix a standard for adjusting passenger and freight rates to one another throughout the country.

The argument of the rate cases was the first scheduled for the term. Before it was taken up dozens of motions were made in other cases on the docket. In the main, these motions were for the advancement of cases said to be of high importance, for the review of judgments in lower federal courts not appealable to the court as a matter of right, and for the dismissal of the appeal in other suits.

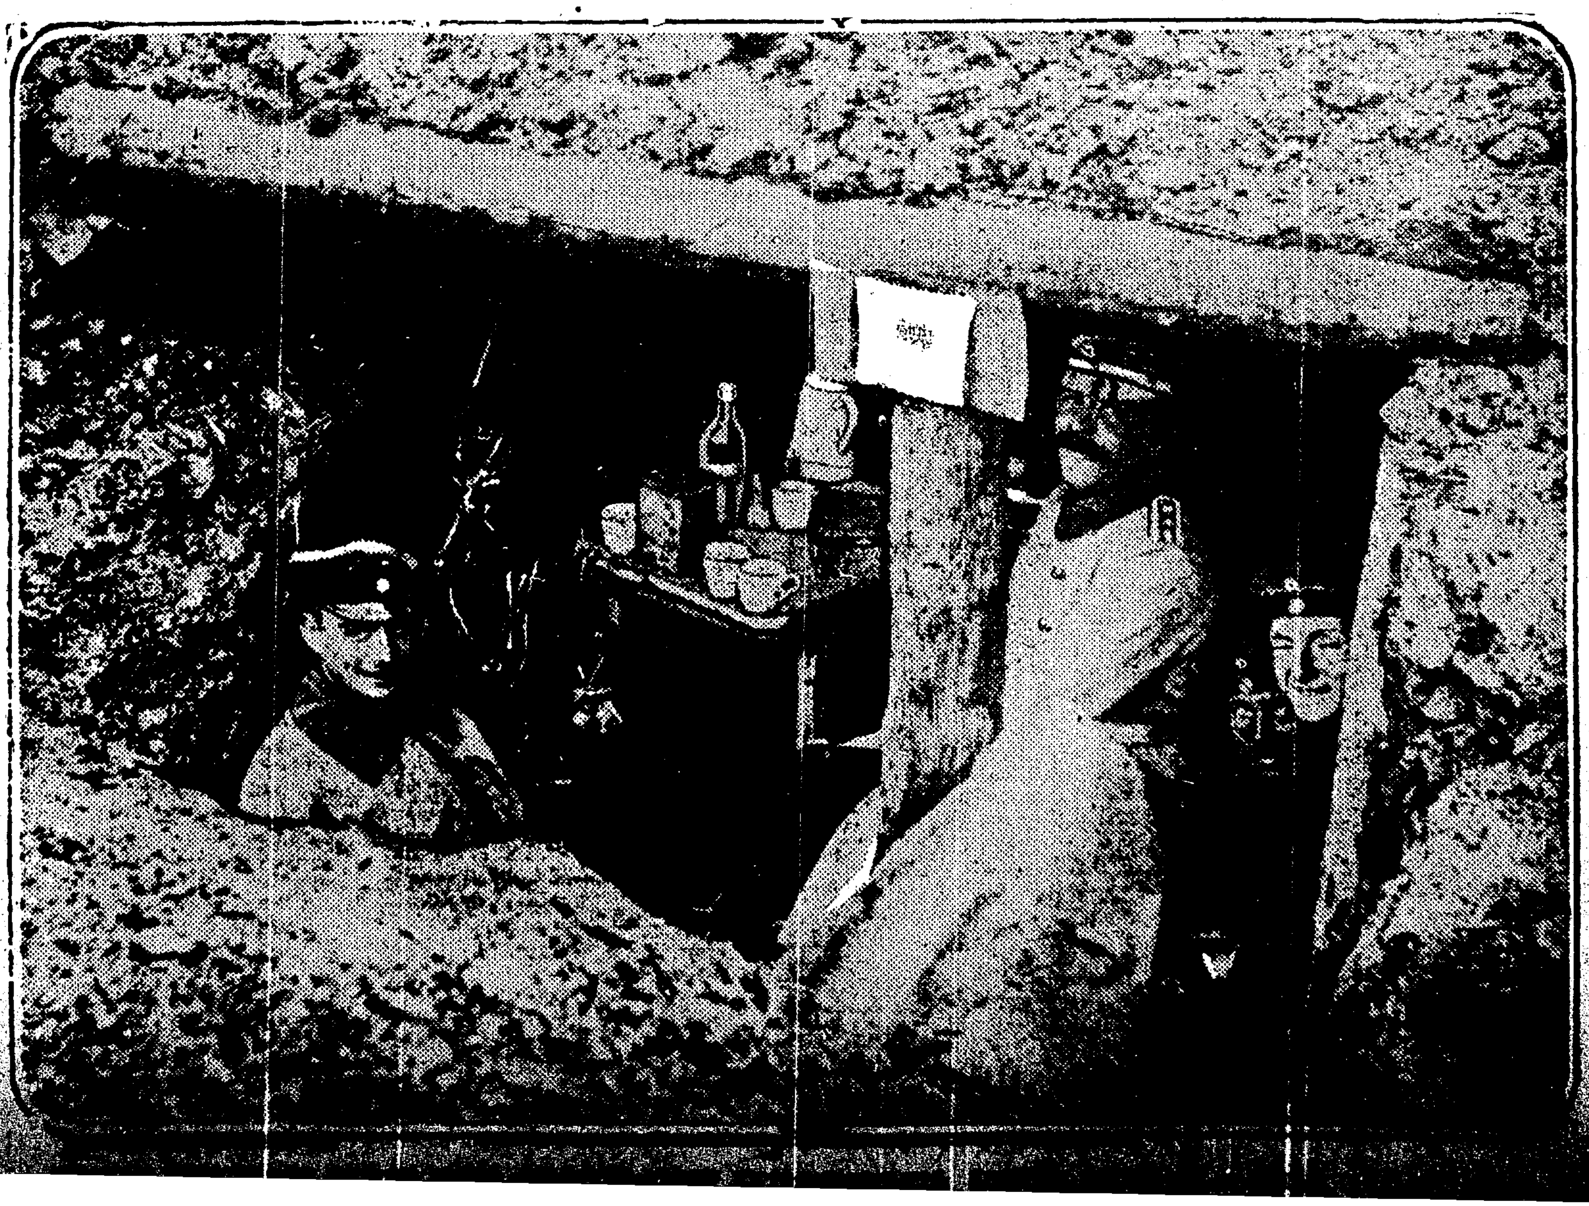
GERMANS ENJOY THEIR DINNER? SAFE FROM ENEMY'S SCREAMING SHELLS



MAMMA, DADDY AND CHILDREN ALL LOVE "CALIFORNIA SYRUP OF FIGS

Harmless "fruit laxative" cleanses stomach, liver and bowels.

A delicious cure for constipation, biliousness, sick headache, sour stomach, indigestion, coated tongue, sallowness—take "California Syrup of Figs." For the cause of all this distress lies in a torpid liver and sluggish bowels.

A tablespoonful tonight means all constipation, poison, waste matter, fermenting food and sour bile gently moved out of your system by morning without griping. Please don't think of "California Syrup of Figs" as a physic. Don't think you are drugging yourself or your children, because this delicious fruit laxative can not cause injury. Even a delicate child can take it as safely as a robust man. It is the most harmless, effective stomach, liver and bowel regulator and tonic ever devised.

Your only difficulty may be in getting the genuine; so ask your druggist for a 50 cent bottle of "California Syrup of Figs." Say to your druggist, "I want only that made by the 'California Fig Syrup Company.'" This city has many counterfeit "fig syrups," so watch out.—Adv.

COFFEE CAUSES STOMACH TROUBLE AND OLD AGE

Physician Says It Interferes With Digestion and Hastens Death by Hardening Arteries.

Among other physiological effects of coffee drinking, it is found that this beverage with its drug, caffeine, is one of the causes of premature old age, according to Dr. J. H. Kellogg of the Battle Creek Sanitarium. He says:

"The evil effects of coffee on all persons of whatever age may be briefly summed up as follows:

"First, the tannic acid in coffee interferes with digestion.

"Second, the caffeine of coffee is a nerve poison.

"Third, the effects produced are similar to those of alcohol. When long used, the result is damage to the poison destroying glands, particularly the thyroid gland, liver and the kidneys, as a result hardening of the arteries and premature old age. All medical authorities forbid the use of caffeine or coffee to persons whose arteries are hardened or who have high blood pressure. This condition is always present in elderly people.

"Coffee is particularly bad for young children, because the thyroid gland and other poison-destroying glands are not yet well developed. Any intelligent parent would not permit a child to use coffee."

Note.—Among invalids and those recovering from disease and surgical operation coffee drinking is almost invariably forbidden. On the contrary the pure food-drink INSTANT POSTUM finds extensive use in hospitals and sanitariums the country over. This delicious beverage is taking the place of coffee in thousands of American homes where [illegible] "There's a Reason."

Don't Merely "Stop" a Cough

Stop the Thing that Causes It and the Cough will Stop Itself

A cough is really one of our best friends. It warns us that there is inflammation or obstruction in a dangerous place. Therefore, when you get a bad cough don't proceed to dose yourself with a lot of drugs that merely "stop" the cough temporarily by deadening the throat nerves. Treat the cause—heal the inflamed membranes. Here is a home-made remedy that gets right at the cause and will make an obstinate cough vanish more quickly than you ever thought possible.

Put 2½ ounces of Pinex (50 cents worth) in a pint bottle and fill the bottle with plain granulated sugar syrup. This gives you a full pint of the most pleasant and effective cough remedy you ever used, at a cost of only 54 cents. No bother to prepare. Full directions with Pinex.

It heals the inflamed membranes so gently and promptly that you wonder how it does it. Also loosens a dry, hoarse or tight cough and stops the formation of phlegm in the throat and bronchial tubes, thus ending the persistent loose cough.

Pinex is a highly concentrated compound of Norway pine extract, rich in guaiacol, and is famous the world over for its healing effect on the membranes.

To avoid disappointment, ask your druggist for "2½ ounces of Pinex," and don't accept anything else. A guarantee of absolute satisfaction, or money promptly refunded, goes with this preparation. The Pinex Co., Ft. Wayne, Ind.

11 Chronicles 12:1-12.

1 And it came to pass when Rehoboam had established the kingdom, and had strengthened himself, he forsook the law of the Lord, and all Israel with him.

2 And it came to pass, that in the fifth year of king Rehoboam Shishak king of Egypt came up again Jerusalem, because they had transgressed against the Lord,

3 With twelve hundred chariots, and threescore thousand horsemen: and the people were without number that came with him out of Egypt; the Lubims, the Sukkiims, and the Ethiopians.

4 And he took the fenced cities which pertained to Judah, and came to Jerusalem.

5 Then came Shemaiah the prophet to Rehoboam, and to the princes of Judah, that were gathered together to Jerusalem because of Shishak, and said unto them, Thus saith the Lord, Ye have forsaken me, and therefore have I also left you in the hands of Shishak.

6 Whereupon the princes of Israel and the king humbled themselves; and they said, The Lord is righteous.

7 And when the Lord saw that they humbled themselves, the word of the Lord came to Shemaiah, saying, They have humbled themselves; therefore I will not destroy them, but I will grant them some deliverance; and my wrath shall not be poured out upon Jerusalem by the hand of Shishak.

8 Nevertheless they shall be his servants; that they may know my service, and the service of the kingdoms of the countries.

9 So Shishak king of Egypt came up against Jerusalem, and took away the treasures of the house of the Lord, and the treasures of the king's house; he took all: he carried away also the shields of gold which Solomon had made.

10 Instead of which king Rehoboam made shields of brass, and committed them to the hands of the chief of the guard, that kept the entrance of the king's house.

11 And when the king entered into the house of the Lord the guard came and fetched them, and brought them again into the guard chamber.

12 And when he humbled himself, the wrath of the Lord turned from him, that he would not destroy him altogether: and also in Judah things went well.

TUESDAY, OCT. 13, 1914.

Welcome to the D. A. R.

Fort Wayne esteems it a distinguished honor and a very great pleasure to extend its most cordial welcome to its guests who are now arriving for the state conference of the Indiana Daughters of American Revolution. It voices the hope that thei. stay may be interesting, pleasant and profitable, and that they may carry with them on their departure recollections of the Fort Wayne meeting that shall be wholly gracious and kindly.

We take it that the selection of Fort Wayne for a conference of this society is a most happy one, for the region about Fort Wayne is very closely linked with the splendid American history which this patriotic society seeks to perpetuate. Though too far westward to have been within the circle of Revolutionary war activities, the site of this city soon thereafter engaged the attention of men who were conspicuous figures in the Revolutionary conflict, and the very name of the city itself betokens the close affiliation with the stury patriots who made history for a new world in the pioneer days.

We have here, in organizations of both Daughters and Sons of American Revolution, attested reverence for national traditions which have come down to us from the country's founding, and we cherish a profound appreciation of the inspiration and the devotion that moves these patriotic societies. Fort Wayne is delighted at the opportunity to extend its cordial greetings and its hospitality to the Indana Daughters of American Revolution on this occasion of their state gathering.

Petitions bearing the signatures of some six thousand Fort Wayne citizens asking for the construction of a municipal convention hall in Fort Wayne are ready for submission to the city council. The request is accompanied by no recommendation as to the course of procedure to be followed to provide funds, the enter matter being entrusted to the good judgment of the city council. The need for a suitable convention hall in Fort Wayne is so manifest that there will be little disposition to argue that point, and the expression of six thousand voters is clearly entitled to definite and serious consideration. The convention hall is one of the projects for which Fort Wayne should do some immediate planning.

The fact that in one precinct in Baltimore but two progressives—Mr. Bonaparte and his coachman—have registered to vote in November, would be discouraging to almost any political organization save the moosers. They are simply going ahead with the radiant show of enthusiastic confidence displayed by the man who absolutely declines to see the steam roller until after it has passed over him.

Lagrange county is about the only one reported in this section of the state that shows an increased registration over the figures of two years ago. The books now contain the names of eighteen more voters than were there at the previous election. Lagrange county always has taken its politics very seriously.

So long as the memory of this world's series endures, you will never be able to convince the people of Philadelphia that the war in Europe embraces within its ramifications all the horrors and all the woes of the world. The city of Brotherly Love is just now undergoing a few poignant ones of its own.

WOMEN ARE ENTITLED TO VOTE.

(Philadelphia Evening Ledger.)

Women are entitled to the ballot.

Why prate that their place is in the home, when more than 8,000,000 of them in this country alone have been driven by the onrush of industry and civilization into store, factory and field?

They have their sweat-shop problems. They stand in crowded cars. Rapid transit is for them, as well as men. The groggeries that sap the vitality of their masculine partners strike deep also into their souls.

Real, vital, vibrant are all social questions to women. Their intuition guides them straight. They sense the right path, while men with their interminable logic grope in darkness.

The character of the nation is in its mothers. In cradles they carve out our destinies. Great women breed great men. They are the forerunners of achievement.

Not competent to vote! Men have had their colleges for centuries, women scarcely for decades, yet the scores of institutions now devoted to them solely are a tribute at once to their determination and their ability. They are more. They are the pledge of a new, aggressive and intelligent element in the battle for moral and political progress.

Will women get the ballot? There is no power that can prevent it. Wonderfully Providence works to invigorate civilization.

BRYAN IN PEACE ADDRESS.

Love, Not Preparedness for War, is Only Foundation.

Philadelphia, Oct. 13.—Voicing the sentiment that the only foundation for universal peace is love and not preparedness for war, William Jennings Bryan, secretary of state, and Oscar S. Strauss, a former secretary of commerce and labor, were the principal speakers at an impressive peace demonstration here last night in Convention hall. Mayor Blankenburg presided and the Rev. William H. Roberts, stated clerk of the Presbyterian general assembly, offered the opening prayer. The Rev. J. J. Wheeler, of the Roman Catholic church of St. John the Evangelist, pronounced the benediction.

"In this age our interests are so entwined with the interests of those who reside in other lands that no nation can live or die unto itself alone," said Secretary Bryan. "If we had no higher reason for encouraging conditions conductive to peace we could find ample justification in the fact that the burdens of war are no longer borne entirely by those who are direct participants in it."

MUNICIPAL EFFICIENCY.

Birmingham, England, is giving a remarkable exhibition of efficiency in the operation of municipally owned public utilities. In the fiscal year ending March 3, 1914, from the supplying of water, gas, electricity and transportation to the public a net profit of $287,031 was applied to reduction of taxation after capital charges, including interest, reserve fund, sinking fund, and renewal fund had been provided for. Gas was furnished to the public at 38.8 cents per 1,000 cubic feet, the lowest price in any city so distant from the gas coal fields.

In New York city the price of gas is 80 cents in Manhattan, and $1 in some of the other boroughs.

The profit from the street car system has been so large that there has been an agitation to reduce fares to a ha'penny (1 cent) for short distances.

In only one department—water supply—is a deficit shown. That is likely to be overcome within a few years as the city is now in position to benefit from the large expenditures made recently for additional pipe lines and reservoirs which have brought the municipality's investment in water works up to $38,941,733.

How to Eradicate All Superfluous Hair
Advice by a Skin Specialist.

The best means I have ever found for removing all signs of disfiguring growths of hair on the face, neck, arms or hands is a new preparation called Mrs. Osgood's Wonder. I have recommended it in thousands of cases and I know personally of its ability to banish every hair forever. It cannot injure the skin or complexion and is quite inexpensive.

You can get Mrs. Osgood's Wonder from Meyer Bros. Co. or any up-to-date druggis. Signed Money-Back Guarantee with every package. Do not apply this treatment except where total destruction of hair is desired.

WILSON PLANNING TO AID BUSINESS

Will Put Force of Government Behind Honest Trade Effort.

Washington, Oct. 13.—John Callan O'Laughlin has sent the following dispatch to the Chicago Herald:

President Wilson is preparing to put the whole force of the government behind honest business in order to bring about an early revival of prosperity.

These are some of the things he is doing:

1. He conferred with Commissioner of Corporations Davies on the question of the personnel of the new interstate trades commission, which will be organized in December.

2. He will sign tomorrow or Wednesday the Clayton anti-trust bill, now being carefully examined by Attorney General Gregory.

3. He is pressing the treasury department to hasten negotiations with representatives of the British treasury for settlement of the international exchange situation.

Seeks Contraband Decision.

4. He is expediting the negotiations of the state department with the allies for the definition of absolute and conditional contraband of war.

5. He will facilitate through the department of commerce and co-operating bodies the development of American export trade.

6. He will urge the interstate commerce commission to lose no time in rendering a decision upon the application of the eastern railroads for an increase in freight rates.

With callers today the president frankly discussed the business situation. In the United States he regards it as comparatively good in spite of the effects of the war. The single exception arises from the absence of a satisfactory market for certain lines of cotton.

Great Opportunity Abroad.

It is the view of the president that there is a remarkable opportunity in foreign lands for practically all of the surplus products of our country, and he is anxious that American exporters should seize it. He will facilitate their efforts through the consular service and the activities of the department of commerce.

The president understands that the cutting off of supplies from Europe has been seriously embarrassing to many countries. The cases of Venezuela and Bolivia are in point in this connection. According to consular reports since the beginning of the European war, there has been an increase in prices on numerous articles in Venezuela, while in Bolivia the government was forced to issue a decree prohibiting merchants from selling goods at a higher figure than they were the month before.

Both of these countries are looking to the United States for aid; and the establishment of branch banks, as contemplated by the new federal reserve act, will be of material assistance to trade through the arrangement of satisfactory credits.

CUBA WILL SOON HOLD ELECTIONS

Many Factional Complications in the Little Republic.

Havana, Oct. 1.—(Correspondence of The Associated Press.)—Elections will be held in Cuba on November 2 for half the membership of the house of representatives and certain municipal and provincial councilmen. While this is not of itself an important election it may serve as a significant preliminary to the campaign for election of a new president next year. President Menocal is on record as inflexibly against accepting a renomination, and the question of who his successor will be is already becoming an interesting one in Cuba.

The present factional complications have never been equalled here. While in a broad sense there are two main parties, the conservatives and the liberals, at the same time there are numerous nominally independent groups whose affiliations are not defined. There is, for instance, one important offshoot of the old liberal party made up of the "Old Guard" of the administration of President Jose Miguel Gomez, who recognize him as their chief and who will doubtless do their utmost to place him in the presidential chair again.

These are the Machadistas, and are, of course, irreconcilably opposed to the wing of the liberal party led by Zayas, the traditional enemy of Gomez.

President Menocal in addition to his resolute stand not to accept a renomination, declares that during the remainder of his term he will carry out his own policies in his own way and not defer to this or that group or faction which offer support as the price of presidential favor, and that he will endeavor to inaugurate soon a "National Party" for the amalgamation of all that is best in the liberal and conservative organizations.

It is certain that whoever the next conservative or national presidential candidate may be he will have a formidable rival in Gomez. The former president has just returned to Havana to occupy his new palace on the Prado and his candidacy will be officially declared soon after the November elections. He will then begin active work to rally the once united liberal party which elected him in 1908. There is no question that the general enjoys a certain popularity in the island and he will have [illegible]

Other probable candidates mentioned this early are General Carlos Garcia Velez, minister to Great Britain, and General Emilio Nunez who may appear in the lists with the backing of the veteran element.

Distress in the tobacco-growing regions of Havana and Pinar del Rio has become so acute that the government is at a loss to find means for relief. Many tracts, once of enormous value for the cultivation of the finest tobacco and fit for little else, have been abandoned, or partly utilized for sugar or vegetables for the Havana market. Numerous causes are ascribed, the foremost being that the world has decreased its demand for the once unrivaled Cuban leaf. This has been the case particularly as concerns Europe, and the present war has served to make conditions worse. Much of the last two crops remains unsold.

A governmental commission is now working in India and the Philippines in the hope of finding some crops which may be grown with a reasonable profit on the abandoned tobacco plantations of Cuba.

The commission appointed by the government to examine into the charges of inferior work in the carrying out of the contract for the sewers and paving in Havana, and the charges against Chief Engineer Brosius, appointed to watch the interests of the Cuban government, has nearly completed its work. It is alleged that a preliminary investigation developed upwards of one hundred complaints against Brosius of various derelictions of duty and it is alleged by officials of the government that Brosius permitted the payment of $2,000,000 worth of vouchers in excess of what the work actually done called for. It is alleged that gross frauds were committed by greatly lessening the amount of asphalt and concrete called for in the specifications of the contract.

BIG EATERS GETS KIDNEY TROUBLE

Take Salts at first sign of Bladder irritation or Backache.

The American men and women must guard constantly against Kidney trouble, because we eat too much and all our food is rich. Our blood is filled with uric acid which the kidneys strive to filter out, they weaken from overwork, become sluggish; the eliminative tissues clog and the result is kidney trouble, bladder weakness and a general decline in health.

When your kidneys feel like lumps of lead; your back hurts or the urine is cloudy, full of sediment or you are obliged to seek relief two or three times during the night; if you suffer with sick headache or dizzy, nervous spells, acid stomach, or you have rheumatism when the weather is bad, get from your pharmacist about four ounces of Jad Salts; take a tablespoonful in a glass of water before breakfast for a few days and your kidneys will then act fine. This famous salts is made from the acid of grapes and lemon juice, combined with lithia, and has been used for generations to flush and stimulate clogged kidneys; to neutralize the acids in the urine so it no longer is a source of irritation, thus ending bladder disorders.

Jad Salts is inexpensive; cannot injure, makes a delightful effervescent lithia-water beverage, and belongs in every home, because nobody can make a mistake by having a good kidney flushing any time.—Adv.

AT THE MAJESTIC.

Blood and thunder action, stirring scenes and interest compelling predicaments, combine to make the melodrama, "Why Girls Leave Home," one of the most thrilling theatrical productions of its character now running. This five act thriller was produced yesterday, matinee and evening, and will be repeated again this afternoon and evening at the Majestic theater by the Oscar F. Cook Stock company. Miss Clara Lewis as Pearl Sherwood, "the girl that left home," is delightfully cast and in the half dozen "strong scenes" demanded of her, rises to the occasion nobly. The road house and the city prison scenes, the latter the one in which the girl that left home turns up just in time to prevent her own brother being convicted of having murdered her, are the best.

"The Dummy" Very Amusing.

The New York Evening Post says of "The Dummy," which comes to the Majestic theater Wednesday, matinee and night:

"Cheerful, lively, clean, well furnished with good lines and unexpected situations, 'The Dummy,' produced last night at the Hudson theater, surprised most agreeably a first-night audience which had faced with some misgiving the prospect of another detective play. The fact is, 'The Dummy,' contrived into a stage piece out of the tales of Harvey J. O'Higgins, is not a real detective play. It is a 'detectuf' play. And there's a vast difference. For a 'detectuf,' obviously, must be a small boy who puts his heart in the business of catching kidnappers and not a mere hireling bravo who puts his brains into it—'that is, assuming that he's got any.' In short, a 'detectuf' story is a sort of fairy story and belongs of full right to the land of make-believe.

"The boy in the case was presented with an admirable effect of boyish intensity from the moment he appeared as a candidate for the office boy's job at the Babbing Detective agency to the other moment when the drop of the final curtain found him eating ham and eggs with magnificent relish and delicacy and declaring that the first thing he'd do with his $10,000 reward would be to 'count it.' Meantime, he had played 'deaf and dumb' (hence the title of the piece,) and rescued the pretty little rich girl from a band of kidnappers almost as harmless as Peter Pan's pirates.'

Something doing tonight. Trier's, Minuet.

Miss Clark Wears Cotton Gown at New York Style Show

Miss Genevieve Clark

Washington, D. C., Oct. 12.—A gown of pink cotton lace, worn by Miss Genevieve Clark, daughter of Speaker Champ Clark, was one of the features of the national cotton fashion show recently organized in New York. Miss Clark originated the idea of a cotton week for the whole country, and is one of the most enthusiastic promoters of the cam- [illegible]

AT THE TEMPLE.

The Temple's happy combination of acts comprising the first half of the week's bill is batting in the .400 class with local amusement seekers, as the bill from A to Z is a clean cut winner. The peppery Vanis troupe of aerialists score faster than the Boston Braves with their sensational wire act that is done to ragtime. Hurst, Watts and Hurst are three regular fellows with a world of fun and music in their big comedy skit. George Beam and Sylvia Evelyn in the laughing sketch, "Just Like His Father," have been the recipients of scores of enthusiastic endorsements. Eddie Rowley's buck and wing and soft shoe dancing is unquestionably the best effort of its kind that has been in Fort Wayne in years, while Ollie Young and April's great act from toyland is a remarkable feature. The soap bubble blowing that these people do is a distinct novelty. The Strand war time pictures have been exciting an unusual amount of comment showing as they do some scenes on actual battle fields before, during and after the engagements. The bill closes Wednesday night.

AT THE EMPRESS.

Fort Wayne certainly likes the All-American, All-Star vaudeville bill now on view at the Empress theater. This All-Hit, All-Success bill is the success of the season. Those persons who have not yet seen it will want to embrace the opportunity of viewing it this evening or tomorrow afternoon and evening. The Bill closes Wednesday night.

The headline act of this superb bill is presented by Joyce and West, a hand young man and a pretty young woman, who exemplify all the best of the ultra modern dances. "When It Strikes Home," is the best dramatic playlet seen in Fort Wayne in many, many years. It tells a thrilling story of heart interest. The Six Olivers present the best and latest and most novel stunts in an acrobatic and tumbling line. El Clevo demonstrates that he has wonderful ability as xylophone player. [illegible]

In the Empresscope are seen the latest and best pictures of the European war and the current events of the whole world.

THE ORPHEUM.

LITTLE MARY PICKFORD

Appearing at Orpheum Today in Pleasing Play.

Little Mary Pickford, the daintiest of all moving picture play stars, will entertain the patrons of the new Orpheum theater this afternoon and evening Miss Pickford enacts the leading role in a pleasing play, entitled "Mary's Convert," in which her great dramatic powers are revealed. She is known far and wide to the photo-play goers and her appearance in the local theater is sure to be appreciated.

The fifth installment of that thrilling and spectacular serial, "Trey O' Hearts," entitled "The Sunset Tide," will be the second great offering on today's program. Judith and her men steal one of the steamer's boats and set out in pursuit of Alan and his party, but become lost in the dense fog and are stranded on a rocky part of the coast. As Alan's boat is passing the point some moments later he is hailed and goes to the rescue. Judith, discovering who her rescuers are, ordered them bound and taken down the coast to a den of some river thieves.

The orchestra and Miss Lipps, soprano, have arranged a most pleasing program.

The program tomorrow consists of a three-reel Eclair drama entitled, "The Squatters," featuring Edna Payne and Robert Frazer.

Vapor Treatments for Cold Troubles

Are now used in all hospitals. The vapors carry the medication to the lungs and air passages without disturbing the stomach. When Vick's "Vap-O-Rub" Croup and Pneumonia Salve is applied over the throat and chest, these vapors—of Menthol, Thymol, Eucalyptol, Camphor, and Pine Tar—are released by the heat of the body. Usually the worst colds go in one night—croup in fifteen minutes. Vick's is fine for head colds, asthma, and catarrh, and is absolutely harmless. Three sizes—from 25c up.

VICK'S Croup and Pneumonia SALVE

AT THE LYRIC.

High class vaudeville at popular prices, only a few seats selling for an advance over the Lyric's usual picture show fees, is the startling theatrical offer Manager B. H. Barnett of the Lyric theater has found so enthusiastically received by Fort Wayne. The vaudeville program consists of three acts, the only sacrifice being made in the quantity of acts and not in the quality, as is evidenced by the fact that Edith Haney, the Two Canadian Pennies and Sam, Kanaoi, the Hawaiian musician, comprise the current bill. Three big pictures are shown in connection with this vaudeville program. The pictures of course change daily with the vaudeville acts moving each Wednesday and Saturday night. Margarita Fischer and Harry Pollard, two of the most popular movie actors that ever stepped in front of a picture machine, will be seen tonight in a laugh-compelling comedy, "Winsome Winnie." Another big two-reel picture booked for today is "The Diamond of Disaster."

LAST YEAR'S GOWN IN THIS YEAR'S STYLE.

Fashion and Economy seem to be "hand in glove" this season.

The woman who feels that she can't afford a new autumn gown can without much difficulty convert her half-worn spring gown into a modish "creation" with a tunic skirt and a waist rejuvenated with a vest of organdie and sleeves of black satin.

If the dress to be remodeled has a straight skirt, and it doubtless has if it is last season's fashion, it may be brought up to date with a flounce or a double flounce of satin, moire or taffeta, the flounces giving it the line of the new Russian tunic.

Satin or silk sleeves are fashion's latest fancy and the material used to make the flounce may be also used to make new sleeves; the waist itself may be recut into a jumper, and a vest of white organdie will give it the right fit at the neck and give the whole dress a touch of up-to-dateness.

Before the old dress is cut into, however, it should be very carefully brushed and sponged or cleaned before you start to make it over. Cleaning will freshen it so that you will feel as if you had a new dress and not a made-over one. Dying is worth considering if the old color is out of style. Hooks and eyes, patent fasteners and buttons should be gone over carefully, frayed skirt braids should be replaced, and worn laces, chemisettes, etc., discarded. You may find that you need a fresh waist lining if the old one is badly worn, too tight at the waist, etc.

FOLEY CATHARTIS TABLETS.

You will like their positive action. They have a tonic effect on the bowels and give a wholesome, thorough cleansing to the entire bowel tract. Stir the liver to healthy activity and keep stomach sweet. Constipation, headache, dull, tired feeling never afflict those who use Foley Cathartic Tablets. Only 25c. Specially comforting to stout persons who enjoy the light and free feeling they give. Dreier Drug Co.—Adv.

LEADERS IN A SUCCESSFUL REVIVAL AT NEW HAVEN.

REV. J. ORR POWELL,

SINGING EVANGELIST ROE.

A very interesting and effective evangelistic service is now in progress in the Methodist Episcopal church in New Haven. The second week of the services is but just beginning and already a great stir is on, and five adults have united with the church.

Rev. C. King is pastor of this interesting and stirring congregation, and all the summer has directed his work preparing for this revival campaign. Last February he secured the services of Rev. J. Orr Powell, of Ossian, Ind., and his assistant, Singing Evangelist Roe, also of Ossian. Mr. Powell possesses traits of adaptation to the evangelistic field, and sees clearly the issues of the local field once he is on the ground.

Mr. Roe as a leader of the singing forces certainly is superior in his fitness, and in New Haven he has already a chorus of voices that rival the best to be found anywhere, and the good part of it is that the young people of New Haven are capable and thoroughly alive to the situation making the very chords of the air vibrant with the power and quality of their music.

Meetings are being held this week and next every afternoon and night. The generous and hearty support given to the meetings by Rev. J. C. Coons, pastor of the Methodist Protestant church, is fully appreciated by the congregation, and many members of that church are nightly adding their share to the work.

Was Well Received.

One of the best entertainments that have been given in any of the churches for some time was rendered Monday evening at the Wayne Street M. E. church when the Epworth league presented Mrs. Almedia B. Waltz in "The Rosary." Mrs. Waltz was well received by the audience that gathered to hear her. Her rendition was pre-eminent and at several times tears could be seen in the eyes of many while at other times laughter prevailed.

INDICTMENT AT SARAJEVO READ

Slayers of Archduke Ferdinand and His Wife Accused.

London, Oct. 13.—(12:10 p. m.)—Reuter's Telegram company has received by way of Amsterdam a dispatch from Sarajevo, Bosnia, saying that the indictment against Gavrio Prinzip, the assassin of Archduke Francis Ferdinand and his wife, together with twenty-one of his accomplices, has been read in Sarajevo.

The men are charged with high treason in connection with the assassination of the archduke. Three other persons have been charged with being cognizant of the plot and of having concealed weapons with which the outrage was perpetrated.

The indictment deals at length with the Servian society called Narodna Odbrana, in Belgrade, which organized the conspiracy; with methods by which the bombs and weapons were smuggled into Bosnia, and relates how the conspirators at Sarajevo recruited their accomplices, distributed their weapons and took their places on the street to await the coming of the archducal party.

Prinzip, under examination, admitted that with a second bullet he intended to kill Field Marshal Oskar Potiorek, the governor of Bosnia, but that he used it for the archduchess.

Finally, the indictment deals with the motive of the outrages and depicts the iredescent machinations for a greater Servia in quarters extending as far as the royal court.

Arguing Motion for New Trial.

Judge Eggeman in the circuit court has put in the day listening to argument of counsel on the defendant's motion for a new trial in the case of Frank J. Shields against the New York, Chicago & St. Louis railroad. Judge Walter Olds, chief counsel for the defendant company, has spent many hours reading to the court voluminous affidavits to show that the plaintiff employed much prejured testimony in the trial of the case last June, when a jury in the circuit court gave Shields a verdict for $10,000 for the loss of a leg when run over by a train at Fulton street in this city. That was the second trial of the case, a jury in December, 1913, having given Shields a verdict of $3,000. Judge Eggeman set that verdict aside as being a compromise. Since the second trial Shields and one of his chief witnesses, a nephew named John Golday, of Chiacgo, have been arrested on warrants charging them with prejury. Both are now under bonds for appearance in the circuit court, to which they were bound from the city court.

COTTON CROP IS PILED IN TEXAS

Fort Wayne Men Saw Acres of It Ready to Be Stored for Time.

"We saw acres and acres of cotton in Texas," said S. M. Foster, who returned Monday night from a trip to Texas, "and warehouses are being built to house it and the reports coming from the south are not a bit exaggerated.

"Europe has been taking two-thirds of the crop and Europe don't want it now and there is nothing left but to store it and wait. Warehouses are being built as rapidly as possible and the banks at Dallas raised two millions of dollars and the citizens a million more to tide the plantation owners over until they can dispose of their crop."

Mr. Foster was accompanied on his trip south by Arthur F. Hall and Dan B. Ninde, of the Lincoln Life Insurance company, and the journey was made to attend a meeting of the American Life association composed of representatives of 104 of the western and southern life insurance organizations.

Mr. Foster stated that none of the members of the party joined the "buy-a-bale-of-cotton" movement in the south and they were not asked to make any purchases.

PA AND MA LOOK THEIR SON OVER

Mr. and Mrs. Gowdy See Hank Cut Up in the Third Struggle.

Boston, Mass., Oct. 13.—While Hank Gowdy, the Braves' catcher, by wonderful batting brought his club home a winner Monday, he didn't know that his parents, Mr. and Mrs. Horace G. Gowdy, of Columbus, O., were watching him.

There was a reason. Mrs. Gowdy admitted it after the game. "It always makes Horace (meaning Hank) nervous when he knows we're watching him. So we decided he shouldn't know of our being here. We are going to keep it from him until after the game Tuesday. Then it won't make any difference. We're going home then."

Gowdy's parents arrived here on Saturday. They have been "hiding" at the Adams hotel ever since. The only persons they let in on their secret was Manager George Stallings, of the Braves. He arranged tickets for them and agreed to "keep mum." He wanted to give them a box, but they chose seats back in the stand, for fear Hank would recognize them.

"You see," said Mrs. Gowdy, "Horace likes to please us so well that when he knows we're watching, it makes him nervous for fear he'll make a mistake. We've gone to see him play lots of times since he's been in the National league. At first we let him know when we were at the game, and he always played poorly. So the last few times we didn't let him know. He played a lot better."

Mrs. Gowdy says Hank knows he can't play as well when his parents are looking on. "Before the series he wrote and begged us not to come to the series," Mrs. Gowdy said. "We promised him we wouldn't for fear he'd be nervous. It was the first untruthful word we've told him since we told him of Santa Claus, I guess. My, I know if Mr. Connie Mack had known we were coming he wouldn't have hesitated a minute to have gone right straight and told Horace."

Gowdy senior is an "iron cross" fan. He once played professional ball in Cincinnati. He and his wife refer to Hank as "the boy." "He's what you call a 'home boy,'" Mrs. Gowdy said. "When he's at home he helps me with the dishes and everything. He's such a comfort. Now don't you tell him we're here."

JOE CONELLY IS NOT SHOWING UP

Boston's Only .300 Hitter Has Hit .111 But He Tied the Score.

Evidently the American league brand of pitching is not to the liking of Joe Connelly. Boston's only .300 hitter, and the Central league's only representative in the world series, as his average for the two games in which he has taken part is .111, but he managed to squeeze through a sacrifice fly in the Monday tilt that hooked up the score and made a Brave victory possible.

His work has been watched with some interest in Fort Wayne as he is the only player known personally to the local fans, and they have been pulling for him to show well in the series.

Interest in the outcome was intensified by the victory of the Braves on Monday, and the crowd that watched the returns on The Sentinel score board, where the plays are posted as they are made, and in advance of any other service, has steadily grown and every time Connolly has been up he has been cheered, but the pulling for him has evidently done him no more good than the knowledge, if he ever hears of it, that he still has friends back in the minors who are rooting for him.

Freak bets have characterized the games so far and wagers have been laid on the first run, the first hit and the first everything in each game as it comes up. Boston's play has made the club such an odds-on favorite in the race that it was out of the question Monday before the game started to get any bets on the general results and money that went up was either wagered that Boston would make it four straight or that the series would not go beyond five games. The score of Monday's game follows:

CHANCE TO MAKE MARK IN SERIES

Boston Entered Game With Opportunity to Win Four Straight.

Boston, Oct. 13.—The Athletics of Philadelphia, three times baseball champions of the world, Tuesday were scheduled to fight with their backs to the wall to stave off the rush of the Boston Braves. Defeated in three successive games, one of which will be written large in world's series annals, the American league contenders in the fourth game at Fenway park faced the necessity of winning the next four contests in order to retain their title.

Opposing them with menacing bats and seemingly impervious defense, the Braves, still bent on the compelling dash which carried them from last place to the front of the National league, required only one more game to complete their success with world's series honors. The capturing of four straight games by Boston would create a new world's series record.

It was a desperate situation for the men of Mack. Never in their experience had they been so beset. Desperate measures were necessary.

"The Athletics," said Harry Davis, formerly their captain, and now their coach, "will play as they never did before. It would be fatal to the future of the team to lose four straight."

"The fourth game will go the way of the other three," predicted George Stallings, manager of the Boston team. "The Braves will be world champions by night. I truly believe the Braves cannot be stopped."

Rudolph and Bender Probable.

Players on both sides expressed the belief before the game that Rudolph and Bender would oppose each other in this crucial test. Both managers maintained their policy of masking their batteries until just before the games, but the names of these two men constituted an open secret. Rudolph pitched Boston to victory at Philadelphia last Friday in the first game of the series in which Bender was forced from the box by the bombarding Boston batsmen.

The Indian, of noted craft and stout heart, was considered the best possible reliance of Manager Mack in his team's extremity. Veteran that he is, Bender has not lost his cunning, and three days of rest were believed to have restored the strength that he expended in his vain efforts of Friday. Rudolph, although small of stature, is a giant in rank as a pitcher. He is coolest under the fiercest fire, and his splendid control, sharp breaking spitter and clever change of pace are of proven worth against the Mackmen.

Strunk Forced to Quit.

Philadelphia in its hour of need, suffered an unexpected handicap. Amos Strunk, the center fielder, who alone of the once great batting team had lived up to form, was forced out of the remainder of the series. A boil on a finger of his right hand prevented further participation. Walsh played in his place Monday and will continue in the line.

Boston's formal array was unchanged. Principal in this, the Athletics have found, is tow-headed "Hank" Gowdy, who, in this series, has supplanted Frank Baker as a long distance hitter. No player who has ever taken part in a world's series has equalled the record of Gowdy, whose batting won Friday's game and prevailed again in Monday's contest.

Although the Athletics Monday recovered some measure of their batting strength, they were still far from their true form. The slump was a matter of deepest concern to the Philadelphians. They point out that in fielding they excelled the Boston team by .909 to .908 in the three games thus far, and to their falling off in hitting alone do they attribute their three failures. The team has batted for an average of only .155 in three games, in which they averaged five hits a game.

After today's game the players cease participating in the world's series proceeds. Receipts for the first four games probably will total $225,000, on a total attendance of 110,000. The players' share of the money will be about $115,000, considerably less than two years ago, and somewhat less than last year.

Weather conditions continued excellent. The air was somewhat cooler than yesterday and light clouds flecked the sky.

SCHERER AGAIN MANAGER.

Arnold Scherer, who had a most successful season last winter as manager of the St. Paul basketball team, has been selected by the athletic board to manage the club again during the coming campaign. The selection was made at a meeting Monday night.

BUYING ARMY SUPPLIES.

English and French Making Purchases at Chicago.

Chicago, Oct. 13.—Negotiations for the purchase of several thousand army wagons, one million blankets, 200,000 saddles and bridles and a large supply of rifle cartridges for the use of the English and French armies were opened here today by representatives of those governments.

Representatives of the army purchasing departments asked for immediate bids on the wagon contracts as a large number are wanted for quick delivery in Canada, it was said. The remainder are to be delivered at future dates. Immediate delivery of blankets is demanded by the purchasers as they are wanted for the use of the troops in this winter's campaign.

FIGHT IS DESPERATE ALL ALONG THE LINE

Paris, Oct. 13.—The efforts of the Germans who are fighting hard in an endeavor to effect a turning movement to the north of the long battle line in France continue to hold the interest of the observers of the war. According to an official announcement German cavalry some days ago had advanced in the west to as far as Cassel (27 miles northwest of Lille). These German forces now, however, are said to extend only to Hazobrouck (five miles south of Cassel).

If this should be true it is considered that it will make somewhat greater the difficulties of the Germans in bringing success to their efforts. This section of the war zone continues the scene of particularly violent actions, the opposing squadrons fighting desperately to gain the slightest advantage on which so much may depend.

The Germans at the same time are not lessening their attempts to find at other points on the battle line weak spots in the allies' front. All their efforts, it is said, are being met successfully by their French and English opponents.

The latest German flag captured by the French belonged to an active regiment, which was part of the corps stationed at Stetting. This fact, according to the French, indicates that the Germans have concentrated on the French frontier forces which ordinarily would be assigned to guard the Russian border.

The withdrawal of the Germans from the vicinity of Verdun, as officially indicated, has been well received by the French. It is taken to show the further disengagement of the enemies' forces operating around the great French fort on the Meuse, and which is regarded in Pasis as the retiring of the enemy toward the frontier.

WOULD TEAR OUT DAM IN ST. JOE

Traction Company's Barrier Interferes With Tapp on Wall Work.

Following an appeal from Herman W. Tapp, of the Tapp Construction company, for removal of the Fort Wayne and Northern Indiana Traction company's dam in the St. Joe river at the power station because it is causing high water that interferes with work on the Spy Run avenue retaining wall, City Engineer Randall called General Manager Sam W. Greenland into conference Tuesday afternoon to learn what can be done. The dam was built by the traction company to maintain a sufficient stage of water in the river to insure a supply for the condensers of the big turbines in the company's power plant. Contractor Tapp, who is building the Spy Run wall, has been compelled to suspend operations because of high water and he believes that if the dam were temporarily removed he could keep on with the work.

It was considered doubtful if the traction company would consent to wreck its dam.

BOARD OF WORKS ROUTINE.

The board of works at Monday's meeting ordered the engineering department to prepare plans for paving the alley between Kinnaird and Packard avenues, from South Wayne avenue to Indiana avenue, and received a report from the Indiana Engineering and Construction company that the cement sidewalks on Monroe street, from Washington to Madison, were completed.

CROOKED SCALE CONDEMNED.

City Sealer C. B. Tolan on Tuesday morning condemned a crooked scale that was being used by a rag buyer at Main and Barr streets. It was of the "bulldog" pattern and is the ninth scale of that type seized by the sealer.

ORDERS FORCE DOUBLED.

Work on Rudisill Boulevard Water Main to Be Rushed.

The board of works has given orders to Superintendent G. B. Porsch, of the waterworks department, to double the force he has at work laying the new 12-inch water main on Rudisill boulevard and thirty or more additional men will be put at work immediately. The main has been installed from Indiana avenue to Hoagland avenue, and will be carried to Lafayette street. Some of the trenching goes to a depth of seven feet and the board is demanding a larger force that the work may be completed promptly. The main when completed will afford great relief to the No. 3 pumping station, which has had a heavy pressure to contend with in forcing water through the 8-inch main that the new main is replacing. The new main will afford a more abundant supply to a large region.

During the present year the board of works has purchased 700 tons of iron pipe for the waterworks department and that has not met the demand for extensions of the public water service.

BOARD OF WORKS ASKS MONEY.

Appropriations to Complete the Year Are Sought.

Pursuant to a request from the board of works, Controller W. C. Baade will send to the city council Tuesday evening an ordinance appropriating $7,050 from the general fund to various accounts whose funds are about exhausted. The money is needed to complete the present year, at the end of which the 1915 appropriations will legally be available. The board wants $5,000 added to the sewer repair account in order to pay for the cleaning of the intercepting sewer, which is now undergoing its first renovation since it was built, thirteen years ago. The garbage disposal account needs $1,000, the city hall account $1,000 and the furniture and fixtures account $50.

DIPHTHERIA IS SPREADING.

The effect of the opening of schools on childhood contagions is shown in the fact that there are seventeen cases of diphtheria under quarantine by the health department. There is very little scarlet fever in the city. The following new cases of contagion are recorded:

Lavon Dodane, aged 8 years, 3421 Lafayette street—diphtheria.

Melair Zroehl, aged 9 years, 720 Colerick street—diphtheria.

Martha Maure, aged 6 years, 2001 Warsaw street—diphtheria.

Clarence Kaliker, aged 7 years, 432 Colerick street—diphtheria.

Ruth Farley, aged 18 years, 240 Douglas avenue—diphtheria.

CONCRETE SLABS ARE LOADED.

The contractors for the Wabash bridge at the Harrison street subway have completed the work of loading the massive forty-ton slabs to be used in the bridge and have removed the north track from the elevation. The slabs will be placed at once and the bridge completed. The board will crowd the Moellering Construction company to get the city's portion of the subway work completed.

NEW RESOLUTION TO GO IN.

The city council Tuesday evening will consider a new resolution authorizing the Wabash railroad company to lease to the Fort Wayne Electric works a portion of [illegible] poses. The electric works wants the ground as a site for a mammoth building to be used as warehouse and shipping station, and expects to sepnd nearly half a million dollars on it. A former resolution of the same purport was passed but was rescinded because it did not adequately protect the rights of the city and the railroad.

MUST PAY FOR WIDENING STREET.

The city council Tuesday evening will receive from the committee on contracts and franchises a report to the effect that if the Fort Wayne & Northern Indiana Traction company is given a franchise to lay a double track on Calhoun street from Creighton avenue to Pontiac street it will have to pay for widening the street two feet on either side and paving the additional width.

ELIZA STREET IS PAVED.

The Moellering Construction company has completed paving operations on Eliza street and the work on that thoroughfare is now ready for inspection. The Moellering construction gang has been taken from Eliza street to reinforce the men at work on the Maumee avenue pavement, which it is expected will be completed not later than next Saturday.

(Continued from Page 1.)

sharp wind from the east and the spectators shivered at times in the stands.

Made It Another Holiday.

Boston made it another holiday today. Thousands took the day off and thronged to Fenway park hours before the gates were opened. Nearly every seat in the unreserved stand was filled at noon and hundreds stood up against the fences. Reserved seats sold at a premium.

More than 30,000 persons were in Fenway park by game time. There was little betting on the series as the large majority of the "fans" said Boston was a sure winner and no one wanted the short end. Wagers were made at 10 to 9 that Boston would capture the contest today.

Batting and fielding practice kept the crowd on the keen edge of enthusiasm for two hours before the game. Flushed with victory, the Bostons went about their work with a spirit that showed their intention of trampling over their foes today with all speed and dispatch.

The Athletics also warmed to their work and their infield showed some sterling practice with bat and ball. Gowdy, batting hero of the series, tickled the home folks with some long drives into the stands.

Mack Springs a Surprise.

To the surprise of the spectators, Manager Mack sent Shawkey to the mound for Philadelphia, instead of Bender, the Indian, whom it had been supposed would be the pitching selection for the day. Rudolph was the Boston pitching performer. The line-up for today:

Braves—Moran, rf; Evers, 2b; Connelly, lf; Whitted, cf; Schmidt, 1b; Gowdy, c; Maranville ss; Deal, 3b; Rudolph, p.

Athletics—Murphy, rf Oldring, lf; Collins, 2b; Baker, 3b; McInnis, 1b; Walsh, cf; Barry, ss; Schang, c; Shawkey, p.

Umpire Byron gave the decisions behind the plate; Hilderband on the bases; Klem in left field. Dineen in right.

Clearing, But Chilly.

It began to clear a little about 1 o'clock and the sun broke through the clouds, but it was still cold and the players had to work fast to warm up. In the Boston's batting practice Tom Hughes used his fast ball in order to accustom the home club to Bender's speed. Both Rudolph and James took part in the batting practice.

John Coombs took the pitching slab for the Athletics, when they took their batting practice. They went after the ball in smart fashion and shot his drives in all fields.

Rudolph and Whitted were [illegible] ing Bob Shawkey out to warm up with Jack Lapp.

TWO JUMP TO FEDERALS.

Perritt and Wingo, of St. Louis Nationals, Go to Pittsburg.

St. Louis, Mo., Oct. 13.—W. D. Perritt, pitcher, and Ivy Wingo, catcher of the St. Louis Nationals, have quit organized baseball, according to an afternoon paper today, and have signed or will sign with the Federal league.

Wingo left here last night for Cincinnati. Before leaving he refused twice to talk terms for next year with Manager Huggins. Perritt also had evaded a meeting with Huggins. It is understood he has signed with the Pittsburg Federals. Other players in the local National league who have not signed for next year are Albert J. Dolan, left fielder; Dan Griner, pitcher; Richard Niehaus, pitcher, and Patrick O'Conner, catcher.

Another afternoon paper says Perritt has signed for three years with the Pittsburg Federals; that he received $3,500 in advance; that Wingo has signed with the Buffalo Federals for $6,000 a year and that he received $3,000 in advance. This paper quotes Perritt as follows:

"I drew $3,000 from the Cardinals this season. The Pittsburg Federals have offered me more than that as bonus money. I signed with Rebel Oakes in Philadelphia on Sept. 20."

Wingo is quoted as saying: "I signed with the Federals in Pittsburg on Sept. 29."

BULLETIN.

Vienna, Austria, Oct. 13.—(Via Amsterdam and London, 5:55 p. m.)—An official announcement given out in Vienna today reads as follows:

"Our offensive has reached the San river after numerous fights, most of which resulted victoriously for our troops.

"The relief of the stronghold of Przemysl has been completed. To the north and to the south of this fortress what remains of the hostile army has been attacked. Jaroslau and Lezapk are in our possession."

The worlds production of pig iron in 1913 is estimated at 76,500,000 tons, a new high record.

MANY DELEGATES REACH THE CITY

badges. Everything is in readiness for the opening meeting at 8:30 tonight in the ball room of the hotel. The state regent, Mrs. Frances H. Robertson, will call the meeting to order. Rev. H. B. Master will pronounce the invocation and Miss Margaret Vesey will give the address of welcome. Mrs. W. A. Cullop, of Vincennes, will respond to Miss Vesey's welcome. James Hagar Haberly will give a welcome from the Sons of American Revolution chapter, to which Mrs. John Lee Dinwiddie, vice president general for Indiana, will respond. There will be music by local musicians interspersing the program.

Mrs. Bassett Here.

The chief address of the program will be given by Mrs. Charles W. Basset, of Baltimore, Md., who was one of the first visitors to arrive this morning. Mrs. Bassett is historian general for the National Society of the Daughters of the American Revolution, and with her mother and sisters were among the founders of the society, which is not yet a quarter of a century old. But in spite of the many things Mrs. Bassett has done and is doing, for she is a farmer, is president of the Woman's Exchange in Baltimore—with over two hundred consigners weekly—has a home with husband and daughter, she has enough enthusiasm left to scatter at every meeting or convention of the D. A. R. she attends.

"I believe," said Mrs. Bassett this morning, "that the two vital things of the organization of Daughters are research and conservation. Both are so important a work as well as one of so much interest, that once women take hold of it, they will not let go. When I went to Vassar," remarked this cultured and versatile woman, "from which I was graduated in 1883, there was no chair of history. I believe it is a mistake to not devote more time to the teaching of modern history and less to that of ancient times. We looked upon the founding of the society of descendants of the revolutionary days as almost a sacred thing. We had a feeling of conservation to the memory of the men who had given to us the liberty we enjoy at the awful price of war. Now I feel sometimes that there is a lack of appreciation for patriotism and for the preservation of early historical facts."

Is Candidate for Regent.

Mrs. William A. Cullop was another of the early arrivals this morning. Mrs. Cullop is an avowed candidate for state regent. Mrs. Cullop founded the Frances Vigo chapter in her home town and is working hard to preserve historical landmarks in the old and famous Indiana city. Mrs. Cullop is vice regent for the Indiana state society and has been devoted to chapter work in her home town and faithful in attending meetings of the state organization wherever held. It is likely that if Mrs. Cullop should be honored with the election to the regency, the Vincennes delegation would extend an invitation to the Indiana society to meet there at its next annual conference. Mrs. Cullop is a guest of Mary Penrose Wayne chapter at the Anthony.

Mrs. Beck Arrives Tonight.

Mrs. Henry A. Beck, of Indianapolis, who has been prominently and frequently mentioned in the state as a possible candidate for the state regency, arrives this evening and will be a guest at the home of Mrs. Charles B. Fitch. Mrs. Beck is a great worker in Indiana as well as national historic work, and her charming personality and culture have won many warm friends who hope for her election.

Wednesday's Program.

The program at both sessions on Wednesday will be given principally to reports from the chapters of the state. Mrs. Frances H. Robertson, who will retire from a three years' successful service as state regent will give her report [illegible] third continental congress, Mrs. M. C. Garber on conservation, Mrs. Newberry Howe on the reciprocity bureau. Mrs. Robertson will appoint conference committees, there will be music, and a visit to the relic room in the Allen county court house. At luncheon at the Anthony hotel the delegates will be guests of Mary Penrose Wayne chapter. In the afternoon Mrs. Martha B. Hanna will report on welfare women and children, Mrs. W. W. Gaar on "Old Trail Roads," Miss Mary-Alice Warren on "The Magazine," Mrs. Rose Budd Stewart on "Children of the republic." Mrs. W. H. Moore on "Children of the American Revolution" and Mrs. Arthur Brady on the state memorial committee work. There will be two addresses in the afternoon, one by Mrs. W. B. Neff, of Cleveland, on "The Girls' Homemakers Club," and one by Mrs. E. C. Atkins on "The Times." Mrs. Atkins is regent of the Cornelia Cole Fairbanks chapter. Dinner at 7 o'clock at the hotel will be followed by a reception at the home of Mrs. Robertson at 8:30 for the delegates, visiting daughters, chapter members and their husbands. The reception is given by the local chapter.

MARITZ LEADS A REBELLION

(Continued From Page 1.)

union; whereas, these efforts have so far succeeded and that Lieut. Col. Solomon Gerhardus Maritz, together with one of his officers and a portion of the forces under his command, has shamefully and traitorously gone over to the enemy and is now in open rebellion against the government and the people of the union and is, in conjunction with forces of the enemy, invading the northern portion of the Cape province.

"And whereas, there is grave reason to think that the government of German Southwest Africa has, through its numerous spies and agents, communicated with and corrupted also other citizens of the union under the false and treacherous pretext of favoring the establishment of a republic in South Africa, and,

"Whereas, the government of the union considers it necessary to take effective measures to protect and defend the interests of the union and its loyal and law abiding citizens against these insidious and treacherous attacks from within and without, and to that end to declare martial law."

Continuing the proclamation states that the whole union of South Africa is under martial law as understood and administered in time of war, and dating as of today.

The proclamation is signed by Lord Buxton, governor general of the union, and countersigned by Gen. Smutz, minister of defense.

Has Been Brewing.

The rebellion among the forces of the northwest Cape province has been brewing since the resignation of General Beyers as commander in chief of the union forces. As soon as the government realized this situation it sent Col. Britz to relieve Maritz of his command. Col. Britz then discovered that Maritz was commanding German troops as well as his own and that he had German guns in his possession. Maritz, who had been given the German rank of general, had arrested those of his officers and men who were unwilling to join the Germans and had sent them as prisoners of war to German Southwest Africa. According to an official statement, an agreement was drawn up between Maritz and the governor of Southwest Africa guaranteeing the independence of the union as a republic, ceding Walfish bay and other parts of the union to the Germans and undertaking that the Germans should invade the union only if Maritz asked them to do so.

Maritz boasted that he possessed large supplies of guns, rifles, ammunition and money obtained from the Germans [illegible]

"In view of this state of affairs," concluded the official statement, "the government is taking most drastic steps to quell this rebellion and punish all rebels and traitors according to their deserts."

BELGIAN CAPITAL GOES TO FRANCE

Bordeaux, France, Oct. 13.—(11:50 a. m.)—It has been decided to transfer the Belgian government to France, in order that it may have full liberty of action.

The foregoing was announced officially in Bordeaux today. Several Belgian ministers, accompanied by a group of officials, left Ostend this morning for Havre, where the French government has prepared temporary offices for them.

King Albert remains with the Belgian army.

London, Oct. 13.—A letter received in Amsterdam from Dusseldorf says the Daily Chronicle Amsterdam correspondent declares that in the recent British aeroplane raid on Dusseldorf, besides a Zeppelin airship being destroyed, four persons were killed and many wounded.

London, Oct. 13.—A dispatch to the Times from Ostend says that a German aviator dropped two bombs on Ostend Monday. Neither of the missiles exploded. The correspondent adds that the Germans occupied Ghent at 7 o'clock Monday morning and that refugees from that city are coming into Ostend.

SAYS PROOF IN CASE IS CLEAR

proves more, namely, that Belgian neutrality practically did not exist and that the Belgian government was conspiring with the allies against Germany. Notwithstanding the denials coming from French sources, it is a fact that the French prisoners were taken at Liege and at Namur, who acknowledged that they had been in those fortresses before the German troops entered Belgium.

"On the French side it has been asserted that the German chancellor in parliament had acknowledged that Germany was doing wrong in violating Belgian neutrality. It must, however, not be overlooked that the chancellor said: 'We know that the allies do not intend to respect Belgian neutrality, and Germany in the position she is in, attacked from three sides, cannot wait whilst the allies can wait;' at the time the Belgian archives were not at the disposal of the German government.

"If the chancellor had known at the time he made his speech that Belgium was not neutral he would certainly have spoken of the alleged Belgian neutrality in a different way.

"Germany has violated the frontiers of no really neutral country, whilst the allies are on record for disregarding all obligations toward China."

MANY YEARS A WABASH AGENT

M. S. Hargrove Dies Tuesday at His Home in Huntington.

The local Wabash freight men were notified Tuesday morning of the death at Huntington of M. S. Hargrove, which occurred at 4:45 o'clock, after an illness with heart and kidney trouble of two years. Mr. Hargrove was the passenger and freight agent of the Wabash at Huntington for about fifteen years. Previous to that service he was the agent at Andrews and later at New Haven, his service as freight and passenger agent with the company extending over a period of thirty years. He is survived by a widow only, there being no children.

The funeral will be held Thursday morning at 9 o'clock from the Catholic church in Huntington and will be generally attended by the Wabash agents of the Peru division.

TROUBLES OF CLAIM AGENT.

Damage to Property Boosts Its Value to Owner.

(Cleveland Plain Dealer.)

Probably least heard of by the public, yet one of the most important railroad officials is the claim agent. His duties are to settle all claims for compensation for personal injury, death, damage or loss of property.

Sherlock Holmes, with the proper experience, would have made a good claim agent. He had the faculty of putting two and two together.

All claims are thoroughly investigated. Some are found legitimate. They are settled. Others which after investigation do not prove that the railroad was a fault, or are misrepresented, are disregarded and if not dropped by the complainant, are fought out in court.

Some of the ruses adopted in efforts to collect damages, uncovered by railroad claim agents, are interesting.

"You would be surprised how quickly the value of damaged articles increase when claims are presented," says a Cleveland claim agent. "The average increase is about 100 per cent."

A few years ago a train hit a cow belonging to a farmer. A claim agent who happened to be aboard, knowing how cows increase in value when killed by a railroad, hurried across the fields to the farmer's house to ascertain the value of the animal before it entered into rest.

Representing himself as a tax assessor, the agent asked the farmer if he was the owner of a big red cow, and if so, what value he placed upon it.

"Oh, not more than $5," replied the farmer. "She's old and ain't much of a milker. Five dollars is a good price for her."

Told the visitor would give $10, the farmer said he didn't care to sell her because she had been upon the place a long time, but that she wasn't worth more than a five-dollar note.

Then the claim agent explained that a train had killed a cow and that to ascertain the real value of the animal, in the interest of his employer, he had represented himself as an assessor. He added on leaving that a check would be forwarded the farmer for $10.

Claim agents, be it said, do not relish "being shrewd" and as a rule prefer to deal openly and frankly with the public.

One railroad experienced much trouble with a farmer on its route. At frequent intervals reports were made to the company that trains were killing hogs.

After several hogs were struck information was obtained that the animals had died of cholera and after death had been placed on the track.

The farmer collected no more.

HOW TO BANISH WRINKLES QUICKLY.

If the average woman only knew it, it is not at all difficult to preserve the youthful contour and velvety smoothness of complexion. Every woman hates to see her face wrinkled or baggy, and practically every one has experimented with some sort of patent remedy in the effort either to remove such condition or ward it off.

As a matter of fact, the most effective remedy in the world is one that any woman can easily make up herself at home, in a moment's time. Let her take one ounce of pure powdered saxolite, which she can purchase at any drug store, and dissolve it in a half pint of witch hazel. Apply this harmless and refreshing solution to the face every day. The results are surprising—and instantaneous. Even after the very first application a marked improvement is apparent. The wrinkles are less in evidence and the face has a comfortable, snug feeling of firmness that is most delightful.

$3.60 PER WEEK THE LOWEST.

Some Girls in Fort Wayne Get Small Wages.

Through the report of committees at the meeting of the Fort Wayne Federation of Labor last night, it developed that the minimum wage of girls in Fort Wayne was $3.60 per week. This information was obtained through a federal investigator who was here some time ago looking into this and kindred matters.

The report of the finance committee on the late State Federation meeting in Fort Wayne developed the fact that there was a cash deficit of $17.55, but that this sum was more than offset by the sale of tables for $101.20, thus leaving a net surplus. The cash receipts were $425 and the expenditures $442.55. Other business transacted included a resolution calling President Wilson's attention to the fact that the United States Marine band was competing with civilians in a business way and requesting that it be stopped; notebooks were ordered for delegates to the federation to facilitate reports; Secretary J. J. Perrey was instructed to send a letter of thanks to the Commercial club for its co-operation in entertaining the delegates at the convention; the Cooks and Waiters were commended for their success and promised the assistance of the federation and Chairman J. E. Wolf, of the convention hall committee, that the committee would meet with the Commercial club tonight.

HEARS FROM HIS BROTHER.

Factory Superintendent E. A. Barnes, of the Fort Wayne Electric works, was relieved of a great anxiety Saturday by receipt of a letter from his brother, Major A. A. S. Barnes, who is in the English army. Major Barnes is now in France in charge of the third division of the overland transport service, which carried supplies from the coast to the battle front. He has been engaged in some skirmishes, but is not on the fighting line at present. Until this letter was received, Mr. Barnes did not know in what part of France his brother was stationed.

M. Wardrop; vice-president, A. H. Perfect; secretary, R. H. Mauk. Mr. Wardrop succeeds Mr. Perfect, who was made a permanent member of the board. R. H. Mauk and M. S. SWITCH TENDER ON OPERATING TABLE.

Jerre Kennelly, the switch tender at the new Pennsylvania passenger station, successfully passed through a severe surgical operation at St. Joseph hospital yesterday for relief from gall stones. He is doing well today, the nurse said, and will be out in due time. Kennelly is a nephew of Paul Hanley, the watchman at the Pennsylvania shop entrance.

J. A. SULLIVAN HERE.

A visitor at the Bass offices and other industrial concerns today was Joseph A. Sullivan, division freight agent at Detroit for the Wabash. Mr. Sullivan came in on an early morning train and will remain here until 5 o'clock this evening, when he will return to Detroit. He resided here several years, has a wide acquaintance in the city and was heartily greeted wherever he appeared.

Lechler has obtained a three weeks' leave of absence from his duties at the lathe in the Wabash shops and will take a hand at deputy work in the interest of the International Association of Machinists. His experience in labor union matters, together with personal attributes, make him a well equipped agent for the union.

Mr. Eser is a boilermaker at the Wabash shops, where he enjoys a good reputation and is held in high regard by the men. He has been making his home at 723 Poplar street, but in the future will be at home to his many friends at 906 Hugh street."

Oscar Grieble, draftsman at the Bass works, does a little in the fishing line occasionally and when he does great results follow. Yesterday he went fishing at Golden lake with a comrade and while casting for bass he caught a pike which gave a great battle before it was landed in the boat. Several hours later the pike was placed on the scales and found to weigh nineteen pounds and eight ounces. It is believed that it weighed over twenty pounds when first taken from the water. Mr. Grieble is having the head mounted for ornamental purposes. This pike was caught on artificial bait.

MISSIONARIES AT DETROIT.

Tenth Annual Meeting of American Board In Session.

Detroit, Mich., Oct. 13.—More than 1,800 missionaries and laymen from all parts of the world are in Detroit to attend the tenth annual meeting of the American board of commissioners for foreign missions which began today and will continue four days.

Perhaps the greatest task confronting the commissioners is to solve the problem of foreign missions' work raised by the European war. It is admitted that missions in many countries will face danger of annihilation or serious setbacks. One of the most disastrous effects from a missionary standpoint will be the impression it may make on non-Christian minds.

CHICAGO GRAIN AND PROVISIONS.

Chicago, Oct. 13.—Reports of liberal European buying at Kansas City helped bring about an advance here today in the wheat market. After opening unchanged to ⅜c higher, prices made a general all around upturn.

Wet weather, likely to delay the movement of the crop, put strength into the corn market. The opening, which ranged from ⅛c to ⅜c higher, was followed by a moderate additional gain.

Oats hardened with other cereals.

Lower prices for hogs carried provisions down grade.

WEATHER CONDITIONS.

The western storm has spread slowly eastward and during the last twenty-four hours rains have been quite general from Michigan and Minnesota southward to the lower Mississippi valley. The rains have not yet spread to the Atlantic coast districts where fair weather still prevails.

Moderate temperatures have continued over the central and eastern states, but cooler weather is spreading southeastward from the northwest. Heavy to killing frosts with freezing temperatures are reported from the middle and northern Rocky mountain region, Nebraska, the Dakotas and northern Minnesota, while light frosts are reported as far southeastward as Kansas City.

Rain and cooler weather is indicated for this section for tonight. Wednesday will be partly cloudy and continued cool. It is probable that the rainy, cloudy weather will prevent any damaging frost in this section tonight.

Toledo, O., Oct. 13.—"Church members spend more money for chewing gum than they do for the spread of the gospel of Jesus Christ," declared the Rev. O. I. Seward, in an address at the opening session of the west Ohio M. E. conference.

"What we need is more missionary enthusiasm in the church, more pocketbook consecration," he said.

GRAIN MEN WILL FIGHT WAR TAX

Crawfordsville Man Leads Effort in National Convention.

Kansas City, Mo., Oct. 13.—A nationwide fight on the proposed war tax of 1 per cent on every $100 grain transaction was started at the eighteenth annual convention of the Grain Dealers' National association here today when A. E. Reynolds, of Crawfordsville, Ind., presented a report of the legislative committee and it was adopted unanimously. A telegram was sent to President Wilson which set forth the attitude of the grain dealers. Mr. Reynolds pointed out that the proposed tax of 1 per cent would subject the same grain to repeated taxation and that under the plan there was no limit to the amount the government might tax a single shipment.

The tax, it was asserted, would paralyze the grain market. As a substitute, the dealers favored a tax on telegraph messages, bills of lading and other direct taxation which would affect them but which would be definite in scope.

A note of alarm against what was termed the "socialistic tendencies of the present day" was contained in the annual report of Charles Quinn, of Toledo, O., secretary of the association. Mr. Quinn called particular attention to the flood of measures regarding the grain trade.

John Nendff, a foreigner, was fined $1 and costs in the court of the justice of the peace on the charge of assault and battery upon John George.

ADULTEROUS PAIR NABBED BY COPS

Woman's Little Girl Was in Same Room With the Offenders.

Henry Burk was fined $15 and costs and given fifteen days in jail and Mrs. Carrie Connors was continued under $200 bond until Wednesday at conclusion of a hearing in city court, where the pair were arraigned on charges of adultery. They were taken from a room at 120 West Jefferson street near midnight Monday by Officers Hall, Smith, Brown and Harber, after Officer Hall had kept the place under surveillance for a time. Both pleaded not guilty and told a frazzled story of the woman's fear of prowlers and the man's knightly purpose to afford her protection. The case was greatly aggravated by the fact that the woman's 12-year-old daughter was occupying the same room with the pair. A bed had been made on the floor for Burk, who was partially divested of his apparel when the officers entered. Mrs. Connors refused to open the door and it was broken open. Mrs. Connors was arrested and fined last April on charges of keeping a disorderly house and Burk had been in police court previous to this time. The case of the little girl will be placed before the board of children's guardians.

Wife Fears Husband.

Charles Leazier was arraigned on surety of the peace proceedings begun by his wife, Lena Leazier, who said she feared for her life because her husband threatened her and had been prowling around her apartments on West Jefferson street. They have been married thirty-two years and the woman said that of ten children born to them eight were living. She has a suit for divorce pending in the superior court, from which had been issued an order restraining Leazier from molesting his wife. Judge Kerr held that the proper recourse was in the superior court and he refused to put Leazier under bond to the circuit court.

Other City Court Cases.

John Moose, the stage name of an Indianapolis man who is celebrating something or other with a merry time in Fort Wayne, was arrested Monday for being drunk. He forfeited his cash bond of $11. He was arrested last week and paid a fine of $1 and costs for drunkenness.

Tom Rafter, a drunk, was still too much inebriated to be arraigned and was continued until Wednesday. Evert Breuer, another drunk, was turned loose.

Charges of neglecting his children, which have been pending against William Ward, were dismissed on motion of the prosecuting attorney, it being shown that he is now making regular payments.

The case against Leonard Benworth for loitering was continued until October 17 and he was put under $50 bond. He is an 18-year-old boy who recently returned from the boys' school at Plainfield and is accused by his grandfather, who resides in the country, of stealing some money.

Rheumatism

A Home Cure Given by One Who Had It

In the spring of 1893 I was attacked by Muscular and Inflammatory Rheumatism. I suffered as only those who have it know, for over three years. I tried remedy after remedy, and doctor after doctor, but such relief as I received was only temporary. Finally, I found a remedy that cured me completely, and it has never returned. I have given it to a number who were terribly afflicted and even bedridden with Rheumatism, and it effected a cure in every case.

I want every sufferer from any form of rheumatic trouble to try this marvelous healing power. Don't send a cent; simply mail your name and address and I will send it free to try. After you have used it and it has proven itself to be that long-looked-for means of curing your Rheumatism, you may send the price of it, one dollar, but, understand, I do not want your money unless you are perfectly satisfied to send it. Isn't that fair? Why suffer any longer when positive relief is thus offered you free? Don't delay. Write today.

DAY PATROLMEN SHIFTED.

Lieutenant Ed Bevelheimer, day commandant of police, has put in effect an order making a shift in all but four of the daylight beats. Officer Patrick Murphy has been shifted from the east end beat, which he had been walking continuously for thirteen years, to the South Broadway district. Officer John Greer is transferred from the Bowserville region to Bloomingdale after many years in the southeast section, and Officer George Heller goes to Greer's old beat. Officer William Erdman goes from downtown to the east end, Officer John Terry from Broadway to Lakeside, Officer Charles Westerman from the downtown district to the Pennsylvania and Wabash depots and Officer Charles Brandt from the station to downtown.

TAKES PRISONER FROM SHERIFF.

Masked Man Take Law Into Own Hands at Percy, Ill.

Percy, Ill., Oct. 13.—An armed body of masked men stopped Sheriff Bresner of Willisville, on the road last night, took Albert Ciazza, his prisoner from him, shot and instantly killed Ciazza and warned Bresner away. Ciazza was an Italian miner, one of two brothers who engaged in a revolver fight with two American miners, Willis Adams and Ben Cooper. The fight occurred last night and began over a request for a cigarette. When it ended, Sam Ciazza was dead and both the American miners badly wounded.

Sheriff Bresner was on his way to the county jail at Pinckneyville last night with Ciazza when the masked men sprang from the roadside. Three held the sheriff while others marched the Italian ten paces down the roadside and shot him down. There were 15 wounds in his body.

The maskers then warned the sheriff not to follow and vanished into the [illegible]

BOSTON BRAVES NOW WORLD'S CHAMPIONS

Fourth Straight Victory Over Mackmen Wins Title and Sets New Record in World's Series.

Fenway Park, Boston, Oct. 13.—The Boston Braves, National league champions, are the new world's champions in baseball.

By their fourth straight victory over the Philadelphia American leaguers this afternoon. Stallings' men not only captured the championship but set a new record for the world's series. No other team has ever taken the title in an unbroken string of victories.

Rudolph pitched a masterful game, winning his second contest of the series today. The Philadelphians could not catch his elusive slow ball when hits would have sent runs over the plate. The Bostons outgamed and outplayed their opponents in every department of the game. They clinched their victory in the fifth inning after two men were out with Rudolph's single, Moran's double and Evers' solid blow to center. It was the first time that a world's series has been won in four straight games and after the last man was out the Athletics rushed over and congratulated their rivals.

The spectators went mad with joy and paraded the field singing and cheering.

Boston's Battle Cry.

"The world's championship in four games" was the triumphant cry of the Boston Braves, champions of the National league as they swung their battle formation against the Athletics today in the fourth game of the world's base ball series.

"We will win today and end the series," said Manager George Stallings, as he took his seat on Boston's bench. "Rudolph is primed to carry us to final victory. I said we had the best team in base ball and we have proved it."

The pennant winners of the American league fought today in their last line of entrenchments. A defeat meant the passing of the big title in base ball to Boston.

"We are ready to make the fight," said Shortstop Jack Barry, of the Athletics, "and while we know that we must take four straight to win the series, still I think it can be done."

The tall Indian, Bender, was ready for the pitching mound and the veteran southpaw, Eddie Plank, said he was in shape to take up the hurling burden. The day was suited to the Indian's service. It was a day of shadows from passing clouds. Bender's speed is most effective on dark days. There was a

Boston—Deal flied out to Oldring. Rudolph out, Barry to McInnis. Barry also took care of Moran, throwing him out at first. No runs, no hits, no errors.

McInnis out trying to steal, Connelly to Deal to Evers. Walsh fanned. No runs, two hits, no errors.

Boston—Evers walked. Connelly out, Collins to McInnis, Evers going to second. A double play was in sight, but Collins momentarily juggled the ball. Schmidt bounced a hit off Collins legs, Whitted going to third. Gowdy struck out. On an attempted double steal Schmidt was out, Pennock to McInnis to Collins to McInnis. No runs, two hits, no errors.

EIGHTH INNING.

Athletics—Evers tossed out Pennock

German Ambassador Issues Statement Emphasizing the Berlin Claim.

NEUTRALITY OF BELGIUM ISSUE

Says Allies Did Not Intend to Respect It from the First.

Washington, Oct. 13.—Count von Bernstorff, German ambassador here, today issued a statement in connection with a telegram from Berlin announcing the finding in the archives of the Belgian general staff at Brussels by the German military authorities of documents which, it was claimed by Berlin, showed that details of the plan for landing an expeditionary English force in Belgium had been provided for long before the war.

The statement follows:

"The German ambassador drew special attention today to the telegram which came from German headquarters. This telegram proves the German contention that the allies did not intend to respect Belgian neutrality. It even

Today's War News Given in Summary.

Martial law has been declared throughout the Union of South Africa as a result of the discovery of a rebellion in the northern part of the cape province, which adjoins German Southwest Africa. Lieut.-Col. Maritz, a Boer officer, together with a number of his officers and men, has gone over to the German forces of the German protectorate and is in rebellion against the government of the Union.

The official statement issued in Paris this afternoon declares that the allies are making progress along the entire line of battle.

It has been decided to remove the Belgian government to France. King Albert, however, will remain with his troops in the field. Some of the officials of the Belgian government and the members of the diplomatic corps accredited to Belgium already have left Ostend for Havre.

The Germans are reported to have occupied Ghent and yesterday a German aviator dropped bombs on Ostend. The Germans are continuing their endeavors to persuade the civil population of Antwerp to return to their homes; otherwise there is little news of the actual situation at this Belgian port now in the hands of the Germans.

The eastern arena of the war has recorded no particular activity other than continued preparation for a decisive combat in Russian Poland along a battle front which will extend from Kalisz, to Lodz, to Piotreko, to Kielce, and to Rusk, in Galicia. Germany claims to hold all the western part of Russian Poland, with the exception of Warsaw, and it is becoming clear that the German military operations in the eastern theater are being concentrated in Poland.

Vienna declares that the entire Russian force investing Przemysl has been withdrawn. Russia makes no reference today to the situation at Przemysl, but it is reported that Russian forces are continuing to advance in East Prussia and that the soldiers of Emperor Nicholas hold the entire district of Lyck.

The Kaiser Wilhelm canal, according to an Amsterdam report, has been closed to ordinary traffic for the duration of the war.

Prince George of Servia, brother of the crown prince, is reported to have been mortally wounded. Prince Oleg, son of Grand Duke Constantine of Russia, has died of wounds received in battle.

There has been a brief armistice at Kiao Chow, China, to bury the dead. The governor of this German territory is endeavoring to arrange for the departure of all non-combatants remaining in Tsing-Tau.

The American hospital ship Red Cross, which conveyed to England and the continent units to succor the wounded of all armies engaged in the war, has fulfilled her mission and is now on her way back to New York.

PLAN MEMORIAL TO MRS. WILSON

Washington, Oct. 13.—A movement to build a memorial to Mrs. Woodrow Wilson, in the form of a model block of sanitary houses in the slum district of Washington, has been started by Mrs. Archibald Hopkins, who interested Mrs. Wilson in slum work here; Mrs. Ernest Bicknell, wife of the director of the American Red Cross, and other prominent women. The plan is to raise money for the block by subscriptions from the women of the country and to call it the Ellen Wilson Memorial block. Mrs. Wilson's dying wish was that a bill for the elimination of the unsanitary alleys of Washington be passed and since her death this has been done.

Mrs. Hopkins will submit the plan this week to a meeting of various women's organizations to be held in Pittsburg.

MARITZ LEADS A REBELLION

Martial Law is Imposed Throughout Union of South Africa.

WAR'S EFFECT IN A NEW TERRITORY

German's Protectorate in Southwest Africa is Accused.

Capetown, Union of South Africa, Via London, Oct. 13.—11:27 a. m.—It has been officially announced here that a command under Colonel Maritz has rebelled in the northwest of the cape provinces. Martial law has been proclaimed throughout the union.

The proclamation imposing martial law follows:

"Whereas, a state of war exists between the British empire on the one hand and the German empire on the other, and whereas, the government of the protectorate of German Southwest Africa has through a widespread secret propaganda persistently endeavored to seduce citizens of the union and officers and members of the defense forces of the union from their allegiance and to cause rebellion and civil war within the

DRIVE GERMANS BACK, IS CLAIM FROM PARIS

Paris, Oct. 13.—(3:08 p. m.)—The following official announcement was given out in Paris this afternoon:

"The town of Lille, held by a territorial detachment, has been attacked and occupied by a German army corps.

"Between Arras and Albert we have made notable progress.

"Between the Argonne and the Meuse, on the right bank of the Meuse our troops who hold the heights of the Meuse to the east of Verdun, have advanced.

"To the south of the road from Verdun to Metz in the region of Apremont, we have gained a little territory on our right, and repulsed a German attack on our left.

"Our our right wing, Vosges and Alsace, there has been no change.

"To sum up, yesterday was marked by perceptible progress on the part of our forces at various points on the field of battle.

"In Galicia, the Austrian corps, defeated, are endeavoring to re-form at a point four kilometers west of Przemysl."

ENGLAND IS ACCUSED.

Violated Neutrality of Belgium, Declares German Press.

Berlin, Oct. 13. (Via wireless to Sayville)—Information given out for publication today by the German officials says:

"The whole German press declares that the disclosures relative to the Anglo-Belgian military agreement irrefutably prove the violation of Belgian neutrality by Great Britain. Belgian papers state that toward the end of 1911 England intended violating also the neutrality of Holland.

"The British ambassador at Constantinople has ordered the women of the embassy to leave the Ottoman capital today.

"Information received from Sofia confirms the report that the Russian Black sea fleet is sailing southward.

"The Porte declined the demand made by the powers composing the triple alliance that the German naval officers now in Constantinople be dismissed.

"The Russians have dispatched two regiments in order to suppress a mutiny of Siberian reservists in Bessarabia."

AUSTRIANS HIT RUSSIANS BLOW

The Hague (Via London), Oct. 13.—The Austrian legation here has issued the following official communication:

"The rapid advance of the Austro-Hungarian troops along the river San resulted October 11 in the entire withdrawal of the Russian investing force from Przemysl, Galicia, which was immediately occupied by Austrian relief troops.

"The retreating Russians everywhere were strongly attacked. An attempt on their part to cross the river near Sieneawa and Lezajsk gave the Austro-Hungarian troops an opportunity to take a large number of prisoners. These as yet have not been counted."

LOWER COURT IS UPHELD.

Mrs. Grace Guggenheim Again Loses in Divorce Case Action.

Chicago, Oct. 13.—The decision of the lower court denying the former Mrs. Grace B. Guggenheim's petition to have her divorce from William Guggenheim annulled was upheld by the appellate court of Cook county today. The decision held that annulment could serve no good public purpose, that the woman did not come into court with "clean" hands and remarks a suspicion that wealth of the defendant was the real motive behind the suit.

SERVIAN CROWN PRINCE WOUNDED

London, Oct. 13.—12:10 p. m.—The Star's correspondent at Copenhagen says the Vossiche Zeitung of Berlin reports the Crown Prince Alexander of Servia, has been slightly wounded and that his brother, Prince George, of Servia, has been mortally wounded in the fighting against the Austrians.

Crown Prince Alexander of Servia, second son of King Peter, is 26 years old and became heir apparent to the Servian throne when his brother, Prince George, who is one year his senior, renounced his rights to accession in 1909. Prince George had killed his servant and it was believed he had developed homicidal mania.

Prince Alexander has acted as regent of Servia during the illness of the king.

MORE THAN 3,000 LIVES WERE LOST

Washington, Oct. 13.—More than 3,000 lives were lost in the earthquake in the province of Konia, Turkey, Oct. 5, according to a cablegram today from Ambassador Morgenthau to the state department.

Thousands of buildings were destroyed, rendering countless numbers of people homeless.

Ambassador Morgenthau was unofficially requested by the minister of the interior of the Turkish government to solicit help from the people of the United States through the Red Cross and other organizations as the Turkish people were declared to be so impoverished that they render practically no assistance to their suffering compatriots.

JACK TAKES UP TOO MUCH ROOM IN LONDON.

London, Oct. 13.—4:10 p. m.—"You and your motor cars take all together too much room; there are others in London besides you," a police magistrate told Jack Johnson today on imposing another fine on the colored heavy weight champion pugilist for obstructing the street. Johnson protested that he could not prevent people looking at him but the magistrate fined the negro $10 and significantly suggested that he had better not repeat the offense.

SECRECY VEILS THE MASSING FOR COMBAT

London, Oct. 13.—1:15 p. m.—All eyes today are turned toward the eastward where under conditions of strict secrecy, the Teutonic allies and the Russians are preparing to engage in what may prove one of the most decisive combats of the war.

Evidence is accumulating to show that this gigantic conflict will be determined in Russian Poland, and the only question disturbing British experts is which side has chosen the battle ground.

Berlin admits having withdrawn from the Niemen river and at the same time discounts the whole movement in that region as being of no strategic importance. It is now clear that Russia has abandoned the narrow point in Galicia between Przemysl and Cracow, Russian forces having virtually occupied all of Galicia with the exception of these two places.

Petrograd claims this operation is due to strategic reasons, while Vienna maintains that rejuvenated Austrian armies have relieved the Przemysl fortress and driven the invaders out. It is questioned that the more or less demoralized Austrian forces, stiffened by German reinforcements, have resumed the offensive, but there is no information here to indicate the Russian retirement is anything in the nature of a rout resulting from vigorous fighting.

Whatever may be the intention of the armies operating on the ends of the great Russian battle front, it is clear that these movements have paled into insignificance by the tremendous advance in the center. Broadly speaking, this is now the position of the antagonists awaiting the world to open the engagement. The main German armies in Russia are moving toward the Vistula river on a north and south front extending through Pieoterkow, 90 miles southeast of Warsaw, Kielce and Busk, on the Bug river, 30 miles east of Lemberg. To the left of this army between Lodg and Kalisz is another German force and on the right of the main German army is an Austrian force.

The bulk of the Russian troops are on the east bank of the Vistula but a portion of their forces are still on the west side of the river. The nature of the country makes it probable that the center of the battle line will be between Sandomir and Ivangorod, both on the Vistula river, and about sixty miles apart.

In order to take up these positions the Germans have been compelled to abandon strong positions along the river Warthe and avail themselves of the transportation facilities of Russian railroads, which are comparatively poorer than they have been accustomed to. The Russians are described as keen to engage the enemy in a country of their own choosing and near the base of their supplies.

The Germans are said to be still retiring in the direction of East Prussia, and in Petrograd there is a report of a Russian victory near Raczki, midway between Augustowo and Suwalki, which resulted in the capture of several German batteries sent from Koenigsberg.

Berlin declares that all of the western part of Russian Poland is now in the possession of Germany and that every place west of the Vistula, with the exception of Warsaw, is in their hands. It would appear to be a fact that no heavy engagements yet have been fought in this region, most of the fighting being between screens of cavalry.

Should the Austro-German forces suffer defeat along the battle front now forming, the way would be opened, it is being argued in London, for the invasion of Silesia, which next to the Rhine provinces, is the richest district of Germany. But it is not anticipated even in the event of their victory that the Russians will advance with any great speed. The topography of the country and the lack of transports precludes the possibility of anything like the German sweep through Belgium.

Russia suffered their most severe marine loss of the war in the sinking of the cruiser Pallada, which has been torpedoed by a German submarine in the Baltic. In every theatre of the war Germany evidently is resuming the offensive with unparalleled vigor and British naval observers are inclined to expect some co-operative display of activity by the German fleet.

Along the battle line of the Aisne the very brief official communication given out in Paris declares that what little change there has been in the situation favors the allies. The chief alternation in this line, however, seems to be its disposition to stretch toward the shores of the channel.

A most interesting bit of news from the western front is found in the reports from various sources that several of the forts around Antwerp are still occupied by the defenders. If this is true, it is argued here, that possibly the expected reinforcements for the German right wing may not be sent forward in time.

Reports also continue to reach London that the great activity of the German vavalry near Lille is a screening movement to cover the retreat of the army of Gen. von Kluck. Such a retreat is said even to be under way to the north and to the northeast.

WAS MISQUOTED, SAYS COLEMAN

Washington, Oct. 13.—Secretary Garrison said today that Capt. Coleman, U. S. A., charged with discussing the European situation in violation of the president's neutrality order, had voluntarily explained that he was incorrectly quoted in the newspapers.

Captain Coleman admitted having talked with newspaper men upon his return from Europe recently, but disclaimed responsibility for the language attributed to him. He was quoted as saying that high officials were responsible for alleged atrocities committed by German soldiers.

Secretary Garrison has written the officer asking whether he received and read, prior to his arrival in New York recently, a copy of President Wilson's order to army and navy officers to refrain from publicly discussing the European war. Secretary Garrison said he would await a reply before taking any action.

BLOCKS BRING MEMORY BACK

New York, Oct. 13.—An elderly woman suffering from loss of memory, was identified last night by physicians in Flower hospital by using children's blocks with numerals and the letters of the alphabet on them. Late Sunday the woman was found wandering in Central park. She was unable to tell her name and address.

A set of blocks from the children's ward was placed on a table before the woman. Physicians pointed at each letter telling the woman to try to spell her name. When they came to "F" her eyes brightened and she said her surname began with that letter. Slowly she spelled out "Ellen Flanagan." Then numerals on blocks were shown her and with them and the alphabetical blocks the physicians learned her street address in Brooklyn.

STILL FIRING AWAY AT NACO

Washington, Oct. 13.—Col. Hatfield, commanding the American troops on the Arizona border, reported to the war department early today that the situation at the besieged Mexican town of Naco was unchanged.

"Desultory firing continued through the night," the dispatch said. "It is impossible to prevent bullets from falling on the American side as long as firing is continued. A shrapnel shell yesterday passed through the rear of an unoccupied house near the border. It was an accident and the fire was corrected immediately upon demand. In addition to the two men wounded some time ago a corporal has been shot in the thumb."

DAINTY FOOD FOR SWINE.

Feeds Peaches and Cream to Produce Rare Ham.

York, Pa., Oct. 13.—Peaches and cream is the fancy diet on which John Dunlap of Yoe, democratic candidate for sheriff of York county, is raising pigs, from which he expects to produce hams outrivaling the famous Westphalian product, the import of which has been shut off by the war.

Dunlap has a big peach orchard, which has yielded so abundantly this year that he cannot find a market for all the fruit. He has found that his pigs thrive on the peaches and is feeding them in large quantities. He has also a large dairy herd, and as its product just now is more than he can otherwise dispose of, he has taken to making the fruit more appetizing to the pigs by serving it with cream.

REGISTRATION FALLS OFF

Decrease Forecasted in Final Day's Effort at Chicago.

Chicago, Oct. 13.—Many men and women political workers were active here today urging those who failed to register October 3 to get their names on the books today, the last chance to register to vote in the November election.

HOW HE QUIT TOBACCO

This veteran, S. B. Lamphere, was addicted to the excessive use of tobacco for many years. He wanted to quit but needed something to help him.

He learned of a free book that tells about tobacco habit and how to conquer it quickly, easily and safely. In a recent letter he writes: "I have no desire for tobacco any more. I feel like a new man."

Any one desiring a copy of this book on tobacco habit, smoking and chewing, can get it free, postpaid, by writing to Edward J. Woods, 1312B Station E, New York City. You will be surprised and pleased. Look for quieter nerves, stronger heart, better digestion, improved eyesight, increased vigor, longer life and other advantages if you quit poisoning yourself.

GERMAN DESCRIBES A NIGHT ATTACK

Wounded Man in the Guard Corps Tells of Sharp Fighting.

(Correspondence of the Associated Press.)

Berlin, Sept. 22.—Carl Diem, general secretary for the Olympic games, who, as earlier cabled, was wounded in the fighting before Paris, has sent to the Lokal Anzeiger, from the hospital, the following letter describing a night attack by troops of the guard corps:

"After the battles near the village of Voulpaix August 29 and 30, our regiment had a rest day, then marched its thirty miles September 1 and the same distance September 2. The third day we seemed to have caught the enemy and were incessantly on the move until late at night, deploying and taking up various positions. We failed to catch him, however, and made camp disappointed and utterly exhausted. The long desired field kitchens, our "goulash cannon," as the soldiers name them, had just appeared, steaming deliciously, when we got word that the enemy had occupied the village of Marsaux, a few miles away, and entrenched. Several companies of our regiment were told off for the assault, some against the village, the others for a flanking attack. Daylight had long vanished when we marched out.

"'Unload rifles!' was the first command. Not a pleasant command for the infantrymen—to take the cartridges from his beloved rifle, now of no more use to him than a feather until he gets breast to breast with the enemy. But what is the use—orders are orders and in night fighting this order is particularly called for if comrade is not to shoot comrade, and the cartridges rattle from his magazine.

"We march out through the still September night, the moon lighting our way, but lighting us as well.

"We leap a couple of ditches, burst through the hedges and fences and labor up the steep slope of a ploughed field, the companies moving forward in complete silence. Suddenly when we are about a hundred yards from the brow of the hill, it rains bullets, most of them luckily going high. The field fairly seems to spew rifle balls. The tension is slackened. No command is needed; there is the enemy. Bayonets are fixed and the platoons deployed in an instant and with a 'hurrah' the men charge forward against the enemy. These disappear, however, falling back on the real position, the village itself. It is 40 yards away, this charge takes from our overtaxed lungs every last atom of breath.

"The silhouette of the village stands out dark before us and its walls spray out lead and fire. The church spire spits out sparks like a fireworks display piece. Long streams of fire playing from every aperture and around our ears whistles and whizzes the hail of steel. We trip over an unsuspected wire, splash headlong into a ditch full of water, climb the churchyard wall. House after house is taken with the bayonet, house after house bursts into flames, then pursuit continues through the village and for several miles beyond. It is almost dawn before the exhausted troops come to rest and fling themselves down to sleep, rifle in hand and without troubling themselves to unsling their heavy packs from their backs. Such a charge with empty rifles, such a German hurrah the enemy cannot stand against, cannot themselves reproduce.

"How often have I laughed to myself at the youngest of our officers when he delivered his naive lectures to the men and wondered what respect his platoon of reservists, grown men, five to seven years his senior, would have in real battle for his twenty irresponsible years. In the battle on the Marne, the bloodiest of the war to date, I lay wounded among comrades whose voices were already still and watched his platoon go into action on the left flank A line of French trenches spit fire from machine guns, rifles and artillery and against it our men charged forward to certain death. At their head our youngest lieutenant, laughing as usual, led the way in a whirlwind advance by rushes, his dwindling squad following him devotedly until the bullets took him.

"Our next youngest lieutenant was unpopular, owing to his biting, scathing tongue, always rasping the sensibilities of the men. And yet we all came to love him. Once when we seemed to be sitting in a gigantic cornpopper of artillery hail against which no umbrella could protect, this tongue of his usually so scathing, kept us in roars of laughter while old Brother Break-Bones swung his iron flail above our heads. I saw him, too, that day on the Marne lying still and white beneath the pines.

"The third officer—a reserve officer, was his exact opposite. He rarely had a word to say and silent as usual, on that day at Voulpaix when we couldn't make out whence the enemy's fire was coming, he stood erect upon a wall in the full fire. We pulled him down with a broken leg, but not before he had pointed out to us the enemy.

"The eldest of our lieutenants was also a reserve officer. He knew every little kink of soldering. He was equal to every emergency. Before we marched out he helped the inexperienced to make their wills. He, too, was ready, I am sure, when on that bloody sixth of September his life went out like so many others.

"And our captain with the golden, honest heart and the celebrated name—he knew every one of the 270 men entrusted to him, the circumstances and the duty for which every individual was fitted. Never during the entire campaign have we run out of bread and every day, with few exceptions, we had our two warm meals. For that we had to thank his unwearying care. And when we had our baptism of fire from the artillery—we lay unprotected in a wood and could not stir—he walked up and down before us, calmly puffing at his pipe and staking his life for no other purpose than to give us courage. For him, too, was the battle on the Marne his last day. His own leg broken and with a gaping wound in his breast, he bound up the head of the bugler lying beside him and murmured, 'poor youngster, poor youngster.' He was buried the next day. Tears are not often shed in the field, but his little hillock was damp."

HOLDS FATE OF TWO-CENT FARE

Much Hinges on Decision in the West Virginia Rate Case.

Washington, Oct. 13.—The fate of scores of two-cent passenger rates rest upon the outcome of arguments today before the supreme court over the validity of the West Virginia two-cent passenger rate law.

One of the points at issue is whether a state may compel railroads to carry passengers at a non-remunerative rate allowing them to make up their loss by increased charges on freight business. Technically only the rates on the Norfolk & Western railway are concerned, but the decision is expected to fix a standard for adjusting passenger and freight rates to one another throughout the country.

The argument of the rate cases was the first scheduled for the term. Before it was taken up dozens of motions were made in other cases on the docket. In the main, these motions were for the advancement of cases said to be of high importance, for the review of judgments in lower federal courts not appealable to the court as a matter of right, and for the dismissal of the appeal in other suits.

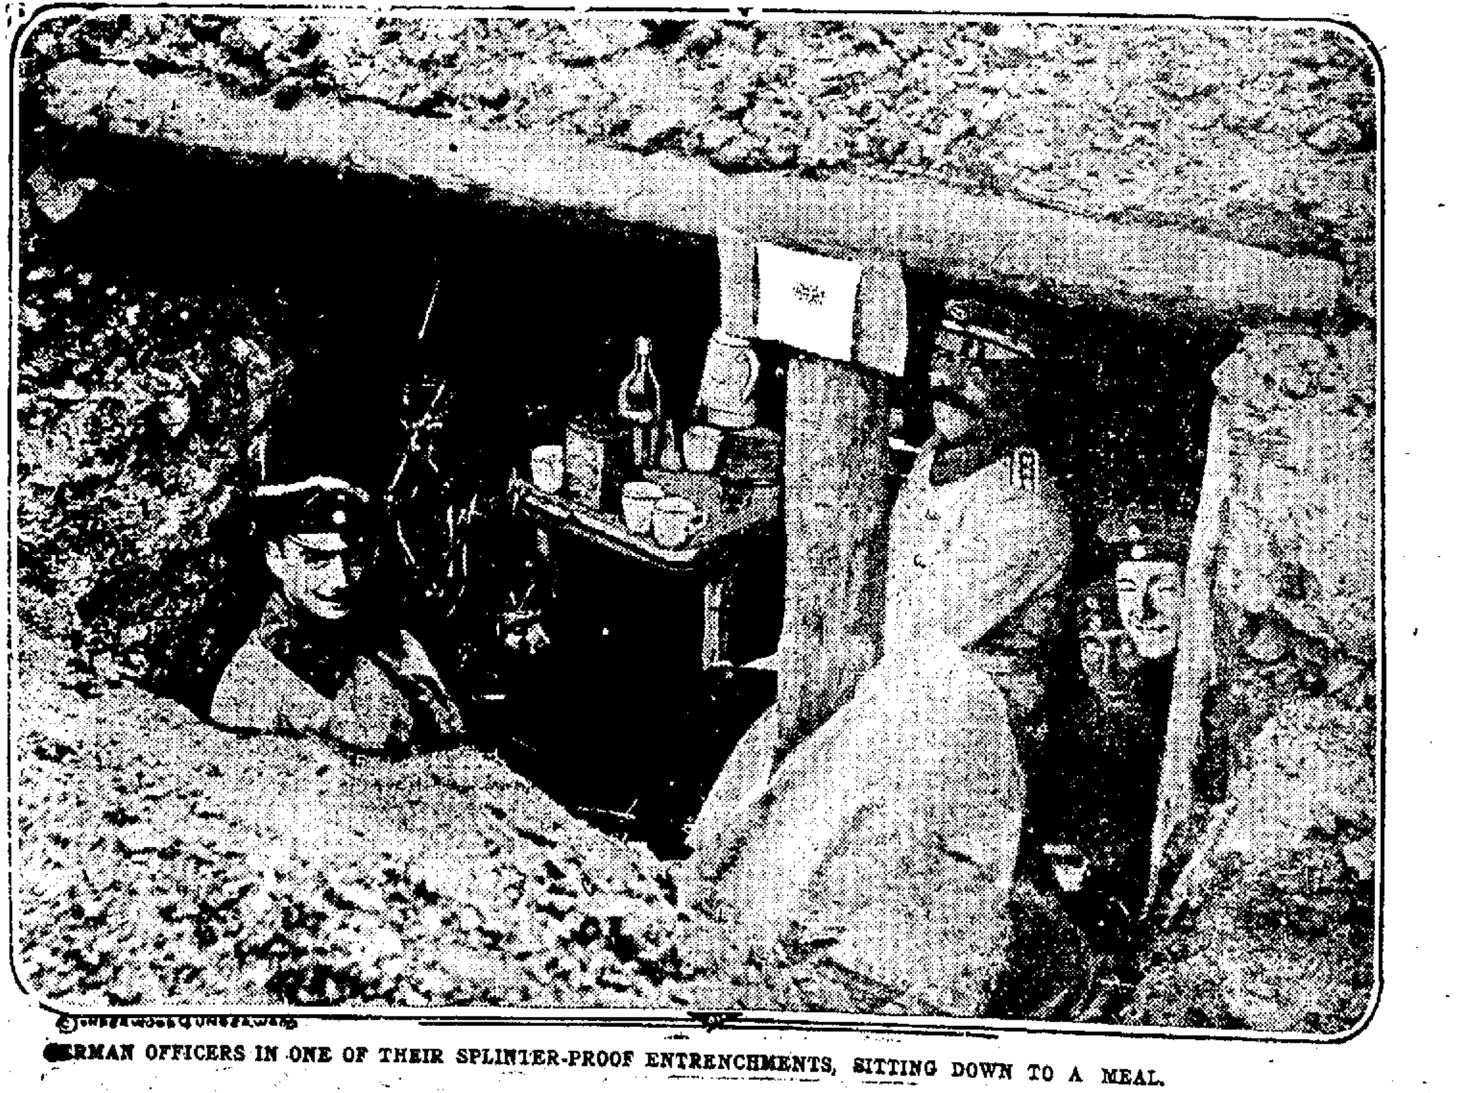
GERMANS ENJOY THEIR DINNER? SAFE FROM ENEMY'S SCREAMING SHELLS



GERMAN OFFICERS IN ONE OF THEIR SPLINTER-PROOF ENTRENCHMENTS, SITTING DOWN TO A MEAL.

MAMMA, DADDY AND CHILDREN ALL LOVE "CALIFORNIA SYRUP OF FIGS

Harmless "fruit laxative" cleanses stomach, liver and bowels.

A delicious cure for constipation, biliousness, sick headache, sour stomach, indigestion, coated tongue, sallowness—take "California Syrup of Figs." For the cause of all this distress lies in a torpid liver and sluggish bowels.

A tablespoonful tonight means all constipation, poison, waste matter, fermenting food and sour bile gently moved out of your system by morning without griping. Please don't think of "California Syrup of Figs" as a physic. Don't think you are drugging yourself or your children, because this delicious fruit laxative can not cause injury. Even a delicate child can take it as safely as a robust man. It is the most harmless, effective stomach, liver and bowel regulator and tonic ever devised.

Your only difficulty may be in getting the genuine; so ask your druggist for a 50 cent bottle of "California Syrup of Figs." Say to your druggist, "I want only that made by the 'California Fig Syrup Company.'" This city has many counterfeit "fig syrups," so watch out. —Adv.

COFFEE CAUSES STOMACH TROUBLE AND OLD AGE

Physician Says It Interferes With Digestion and Hastens Death by Hardening Arteries.

Among other physiological effects of coffee drinking, it is found that this beverage with its drug, caffeine, is one of the causes of premature old age, according to Dr. J. H. Kellogg of the Battle Creek Sanitarium. He says:

"The evil effects of coffee on all persons of whatever age may be briefly summed up as follows:

"First, the tannic acid in coffee interferes with digestion.

"Second, the caffeine of coffee is a nerve poison.

"Third, the effects produced are similar to those of alcohol. When long used, the result is damage to the poison destroying glands, particularly the thyroid gland, liver and the kidneys, as a result hardening of the arteries and premature old age. All medical authorities forbid the use of caffeine or coffee to persons whose arteries are hardened or who have high blood pressure. This condition is always present in elderly people.

"Coffee is particularly bad for young children, because the thyroid gland and other poison-destroying glands are not yet well developed. Any intelligent parent would not permit a child to use coffee."

Note.—Among invalids and those recovering from disease and surgical operation coffee drinking is almost invariably forbidden. On the contrary the pure food-drink INSTANT POSTUM finds extensive use in hospitals and sanitariums the country over. This delicious beverage is taking the place of coffee in thousands of American homes where health is valued, "There's a Reason."

NO STOMACH PAIN, GAS, INDIGESTION IN FIVE MINUTES

"Pape's Diapepsin" is the only real stomach regulator known.

"Really does" put bad stomachs in order—"really does" overcome indigestion, dyspepsia, gas, heartburn and sourness in five minutes—that—just that—makes Pape's Diapepsin the largest selling stomach regulator in the world. If what you eat ferments into stubborn lumps, you belch gas and eructate sour, undigested food and acid; head is dizzy and aches; breath foul; tongue coated; your insides filled with bile and indigestible waste, remember the moment "Pape's Diapepsin" comes in contact with the stomach all such distress vanishes. It's truly astonishing—almost marvelous, and the joy is its harmlessness.

A large fifty-cent case of Pape's diapepsin will give you a hundred dollars' worth of satisfaction or your druggist hands you your money back.

It's worth its weight in gold to men and women who can't get their stomachs regulated. It belongs in your home—should always be kept handy in case of a sick, sour, upset stomach during the day or at night. It's the quickest, surest and most harmless stomach regulator in the world.—Adv.

APPLY IT TO FAT HIPS-SEE FAT GO

Several inches off the hip measure in a week or two—several inches off the waist, fat, pudgy ankles made slender—and other reductions of fat on different parts of the body—this is what may now be done by the remarkable, new fat reducer, Prof. Senz Reducing Soap.

The results of this reducer are surprising. It renders internal remedies unnecessary. Those who have used it say it does what no treatment taken internally can ever do—reduces fat from any part of the body just where you want it taken off.

Nothing to put into your stomach, no tiresome exercises, no diet—nothing but the simple use of this soap does it. Ankles, arms, hips, neck, double chin, feet, hands, bust, waist—any part of the body may be reduced to normal, naturally, easily, quickly. Try it.

Prof. Senz Reducing Soap sold by druggists at $1.00 a large cake, or sent direct on receipt of price by the Hygienic Co., 350 N. Clark St., Chicago, Ill. Full directions with each package. One $1.00 cake will show quick, marked results. A 3-cake box for $2.50 should be used for desired reductions.

KEEP THE KIDNEYS WELL

Health Is Worth Saving, and Some Fort Wayne People Know How to Save It.

Many Fort Wayne people take their lives in their hands by neglecting the kidneys when they know these organs need help. Weak kidneys are responsible for a vast amount of suffering and ill health—the slightest delay is dangerous. Use Doan's Kidney Pills—a remedy that has helped thousands of kidney sufferers. Here is a Fort Wayne citizen's recommendation.

Mrs. Amanda Brown, 307 Douglas Ave., Fort Wayne, says: "Some months ago I used a box of Doan's Kidney Pills and I don't hesitate to recommend them. They act just as represented. My chief trouble was backache. A friend who had found quick relief from that complaint through the use of Doan's Kidney Pills advised me to try them. They strengthened my kidneys and gave relief."

Price 50c, at all dealers. Don't simply ask for a kidney remedy—get Doan's Kidney Pills—the same that Mrs. Brown had. Foster-Milburn Co., Props., Buffalo, N. Y.—Adv.

Kept pure and wholesome in air-tight cans.

Don't Merely "Stop" a Cough

Stop the Thing that Causes It and the Cough will Stop Itself

A cough is really one of our best friends. It warns us that there is inflammation or obstruction in a dangerous place. Therefore, when you get a bad cough don't proceed to dose yourself with a lot of drugs that merely "stop" the cough temporarily by deadening the throat nerves. Treat the cause—heal the inflamed membranes. Here is a home-made remedy that gets right at the cause and will make an obstinate cough vanish more quickly than you ever thought possible.

Put 2½ ounces of Pinex (50 cents worth) in a pint bottle and fill the bottle with plain granulated sugar syrup. This gives you a full pint of the most pleasant and effective cough remedy you ever used, at a cost of only 54 cents. No bother to prepare. Full directions with Pinex.

It heals the inflamed membranes so gently and promptly that you wonder how it does it. Also loosens a dry, hoarse or tight cough and stops the formation of phlegm in the throat and bronchial tubes, thus ending the persistent loose cough.

Pinex is a highly concentrated compound of Norway pine extract, rich in guaiacol, and is famous the world over for its healing effect on the membranes.

To avoid disappointment, ask your druggist for "2½ ounces of Pinex," and don't accept anything else. A guarantee of absolute satisfaction, or money promptly refunded, goes with this preparation. The Pinex Co., Ft. Wayne, Ind.

THE SENTINEL'S DAILY SCRIPTURE READING.

11 Chronicles 12:1-12.

1 And it came to pass when Rehoboam had established the kingdom, and had strengthened himself, he forsook the law of the Lord, and all Israel with him.

2 And it came to pass, that in the fifth year of king Rehoboam Shishak king of Egypt came up again Jerusalem, because they had transgressed against the Lord,

3 With twelve hundred chariots, and threescore thousand horsemen: and the people were without number that came with him out of Egypt; the Lubims, the Sukkiims, and the Ethiopians.

4 And he took the fenced cities which pertained to Judah, and came to Jerusalem.

5 Then came Shemaiah the prophet to Rehoboam, and to the princes of Judah, that were gathered together to Jerusalem because of Shishak, and said unto them, Thus saith the Lord, Ye have forsaken me, and therefore have I also left you in the hands of Shishak.

6 Whereupon the princes of Israel and the king humbled themselves; and they said, The Lord is righteous.

7 And when the Lord saw that they humbled themselves, the word of the Lord came to Shemaiah, saying, They have humbled themselves; therefore I will not destroy them, but I will grant them some deliverance; and my wrath shall not be poured out upon Jerusalem by the hand of Shishak.

8 Nevertheless they shall be his servants; that they may know my service, and the service of the kingdoms of the countries.

9 So Shishak king of Egypt came up against Jerusalem, and took away the treasures of the house of the Lord, and the treasures of the king's house; he took all: he carried away also the shields of gold which Solomon had made.

10 Instead of which king Rehoboam made shields of brass, and committed them to the hands of the chief of the guard, that kept the entrance of the king's house.

11 And when the king entered into the house of the Lord the guard came and fetched them, and brought them again into the guard chamber.

12 And when he humbled himself, the wrath of the Lord turned from him, that he would not destroy him altogether: and also in Judah things went well.

Welcome to the D. A. R.

Fort Wayne esteems it a distinguished honor and a very great pleasure to extend its most cordial welcome to its guests who are now arriving for the state conference of the Indiana Daughters of American Revolution. It voices the hope that thei. stay may be interesting, pleasant and profitable, and that they may carry with them on their departure recollections of the Fort Wayne meeting that shall be wholly gracious and kindly.

We take it that the selection of Fort Wayne for a conference of this society is a most happy one, for the region about Fort Wayne is very closely linked with the splendid American history which this patriotic society seeks to perpetuate. Though too far westward to have been within the circle of Revolutionary war activities, the site of this city soon thereafter engaged the attention of men who were conspicuous figures in the Revolutionary conflict, and the very name of the city itself betokens the close affiliation with the sturv patriots who made history for a new world in the pioneer days.

We have here, in organizations of both Daughters and Sons of American Revolution, attested reverence for national traditions which have come down to us from the country's founding, and we cherish a profound appreciation of the inspiration and the devotion that moves these patriotic societies. Fort Wayne is delighted at the opportunity to extend its cordial greetings and its hospitality to the Indana Daughters of American Revolution on this occasion of their state gathering.

Petitions bearing the signatures of some six thousand Fort Wayne citizens asking for the construction of a municipal convention hall in Fort Wayne are ready for submission to the city council. The request is accompanied by no recommendation as to the course of procedure to be followed to provide funds, the enter matter being entrusted to the good judgment of the city council. The need for a suitable convention hall in Fort Wayne is so manifest that there will be little disposition to argue that point, and the expression of six thousand voters is clearly entitled to definite and serious consideration. The convention hall is one of the projects for which Fort Wayne should do some immediate planning.

The fact that in one precinct in Baltimore but two progressives—Mr. Bonaparte and his coachman—have registered to vote in November, would be discouraging to almost any political organization save the moosers. They are simply going ahead with the radiant show of enthusiastic confidence displayed by the man who absolutely declines to see the steam roller until after it has passed over him.

Lagrange county is about the only one reported in this section of the state that shows an increased registration over the figures of two years ago. The books now contain the names of eighteen more voters than were there at the previous election. Lagrange county always has taken its politics very seriously.

So long as the memory of this world's series endures, you will never be able to convince the people of Philadelphia that the war in Europe embraces within its ramifications all the horrors and all the woes of the world. The city of Brotherly Love is just now undergoing a few poignant ones of its own.

WOMEN ARE ENTITLED TO VOTE.

(Philadelphia Evening Ledger.)

Women are entitled to the ballot.

Why prate that their place is in the home, when more than 8,000,000 of them in this country alone have been driven by the onrush of industry and civilization into store, factory and field?

They have their sweat-shop problems. They stand in crowded cars. Rapid transit is for them, as well as men. The groggeries that sap the vitality of their masculine partners strike deep also into their souls.

Real, vital, vibrant are all social questions to women. Their intuition guides them straight. They sense the right path, while men with their interminable logic grope in darkness.

The character of the nation is in its mothers. In cradles they carve out our destinies. Great women breed great men. They are the forerunners of achievement.

Not competent to vote! Men have had their colleges for centuries, women scarcely for decades, yet the scores of institutions now devoted to them solely are a tribute at once to their determination and their ability. They are more. They are the pledge of a new, aggressive and intelligent element in the battle for moral and political progress.

Will women get the ballot? There is no power that can prevent it. Wonderfully Providence works to invigorate civilization.

BRYAN IN PEACE ADDRESS.

Love, Not Preparadness for War, is Only Foundation.

Philadelphia, Oct. 13. Voicing the sentiment that the only foundation for universal peace is love and not preparedness for war, William Jennings Bryan, secretary of state, and Oscar S. Strauss, a former secretary of commerce and labor, were the principal speakers at an impressive peace demonstration here last night in Convention hall. Mayor Blankenburg presided and the Rev. William H. Roberts, stated clerk of the Presbyterian general assembly, offered the opening prayer. The Rev. J. J. Wheeler, of the Roman Catholic church of St. John the Evangelist, pronounced the benediction.

"In this age our interests are so entwined with the interests of those who reside in other lands that no nation can live or die unto itself alone," said Secretary Bryan. "If we had no higher reason for encouraging conditions conductive to peace we could find ample justification in the fact that the burdens of war are no longer borne entirely by those who are direct participants in it."

MUNICIPAL EFFICIENCY.

Birmingham, England, is giving a remarkable exhibition of efficiency in the operation of municipally owned public utilities. In the fiscal year ending March 3, 1914, from the supplying of water, gas, electricity and transportation to the public a net profit of $287,031 was applied to reduction of taxation after capital charges, including interest, reserve fund, sinking fund, and renewal fund had been provided for. Gas was furnished to the public at 38.8 cents per 1,000 cubic feet, the lowest price in any city so distant from the gas coal fields.

In New York city the price of gas is 80 cents in Manhattan, and $1 in some of the other boroughs.

The profit from the street car system has been so large that there has been an agitation to reduce fares to a ha'penny (1 cent) for short distances.

In only one department—water supply—is a deficit shown. That is likely to be overcome within a few years as the city is now in position to benefit from the large expenditures made recently for additional pipe lines and reservoirs which have brought the municipality's investment in water works up to $38,941,733.

WILSON PLANNING TO AID BUSINESS

Will Put Force of Government Behind Honest Trade Effort.

Washington, Oct. 13.—John Callan O'Laughlin has sent the following dispatch to the Chicago Herald:

President Wilson is preparing to put the whole force of the government behind honest business in order to bring about an early revival of prosperity.

These are some of the things he is doing:

1. He conferred with Commissioner of Corporations Davies on the question of the personnel of the new interstate trades commission, which will be organized in December.

2. He will sign tomorrow or Wednesday the Clayton anti-trust bill, now being carefully examined by Attorney General Gregory.

3. He is pressing the treasury department to hasten negotiations with representatives of the British treasury for settlement of the international exchange situation.

Seeks Contraband Decision.

4. He is expediting the negotiations of the state department with the allies for the definition of absolute and conditional contraband of war.

5. He will facilitate through the department of commerce and co-operating bodies the development of American export trade.

6. He will urge the interstate commerce commission to lose no time in rendering a decision upon the application of the eastern railroads for an increase in freight rates.

With callers today the president frankly discussed the business situation. In the United States he regards it as comparatively good in spite of the effects of the war. The single exception arises from the absence of a satisfactory market for certain lines of cotton.

Great Opportunity Abroad.

It is the view of the president that there is a remarkable opportunity in foreign lands for practically all of the surplus products of our country, and he is anxious that American exporters should seize it. He will facilitate their efforts through the consular service and the activities of the department of commerce.

The president understands that the cutting off of supplies from Europe has been seriously embarrassing to many countries. The cases of Venezuela and Bolivia are in point in this connection. According to consular reports since the beginning of the European war, there has been an increase in prices on numerous articles in Venezuela, while in Bolivia the government was forced to issue a decree prohibiting merchants from selling goods at a higher figure than they were the month before.

Both of these countries are looking to the United States for aid; and the establishment of branch banks, as contemplated by the new federal reserve act, will be of material assistance to trade through the arrangement of satisfactory credits.

CUBA WILL SOON HOLD ELECTIONS

Many Factional Complications in the Little Republic.

Havana, Oct. 1.—(Correspondence of The Associated Press.)—Elections will be held in Cuba on November 2 for half the membership of the house of representatives and certain municipal and provincial councilmen. While this is not of itself an important election it may serve as a significant preliminary to the campaign for election of a new president next year. President Menocal is on record as inflexibly against accepting a renomination, and the question of who his successor will be is already becoming an interesting one in Cuba.

The present factional complications have never been equalled here. While in a broad sense there are two main parties, the conservatives and the liberals, at the same time there are numerous nominally independent groups whose affiliations are not defined. There is, for instance, one important offshoot of the old liberal party made up of the "Old Guard" of the administration of President Jose Miguel Gomez, who recognize him as their chief and who will doubtless do their utmost to place him in the presidential chair again.

These are the Machadistas, and are, of course, irreconcilably opposed to the wing of the liberal party led by Zayas, the traditional enemy of Gomez.

President Menocal in addition to his resolute stand not to accept a renomination, declares that during the remainder of his term he will carry out his own policies in his own way and not defer to this or that group or faction which offer support as the price of presidential favor, and that he will endeavor to inaugurate soon a "National Party" for the amalgamation of all that is best in the liberal and conservative organizations.

It is certain that whoever the next conservative or national presidential candidate may be he will have a formidable rival in Gomez. The former president has just returned to Havana to occupy his new palace on the Prado and his candidacy will be officially declared soon after the November elections. He will then begin active work to rally the once united liberal party which elected him in 1908. There is no question that the general enjoys a certain popularity in the island, and he will have every advantage that great wealth can bestow in conducting his campaign

Other probable candidates mentioned this early are General Carlos Garcia Velez, minister to Great Britain, and General Emilio Nunez who may appear in the lists with the backing of the veteran element.

Distress in the tobacco-growing regions of Havana and Pinar del Rio has become so acute that the government is at a loss to find means for relief. Many tracts, once of enormous value for the cultivation of the finest tobacco and fit for little else, have been abandoned, or partly utilized for sugar or vegetables for the Havana market. Numerous causes are ascribed, the foremost being that the world has decreased its demand for the once unrivaled Cuban leaf. This has been the case particularly as concerns Europe, and the present war has served to make conditions worse. Much of the last two crops remains unsold.

A governmental commission is now working in India and the Philippines in the hope of finding some crops which may be grown with a reasonable profit on the abandoned tobacco plantations of Cuba.

The commission appointed by the government to examine into the charges of inferior work in the carrying out of the contract for the sewers and paving in Havana, and the charges against Chief Engineer Brosius, appointed to watch the interests of the Cuban government, has nearly completed its work. It is alleged that a preliminary investigation developed upwards of one hundred complaints against Brosius of various derelictions of duty and it is alleged by officials of the government that Brosius permitted the payment of $2,000,000 worth of vouchers in excess of what the work actually done called for. It is alleged that gross frauds were committed by greatly lessening the amount of asphalt and concrete called for in the specifications of the contract.

BIG EATERS GETS KIDNEY TROUBLE

Take Salts at first sign of Bladder irritation or Backache.

The American men and women must guard constantly against Kidney trouble, because we eat too much and all our food is rich. Our blood is filled with uric acid which the kidneys strive to filter out, they weaken from overwork, become sluggish; the eliminative tissues clog and the result is kidney trouble, bladder weakness and a general decline in health.

When your kidneys feel like lumps of lead; your back hurts or the urine is cloudy; full of sediment or you are obliged to seek relief two or three times during the night; if you suffer with sick headache or dizzy, nervous spells, acid stomach, or you have rheumatism when the weather is bad, get from your pharmacist about four ounces of Jad Salts; take a tablespoonful in a glass of water before breakfast for a few days and your kidneys will then act fine. This famous salts is made from the acid of grapes and lemon juice, combined with lithia, and has been used for generations to flush and stimulate clogged kidneys; to neutralize the acids in the urine so it no longer is a source of irritation, thus ending bladder disorders.

Jad Salts is inexpensive; cannot injure, makes a delightful effervescent lithia-water beverage, and belongs in every home, because nobody can make a mistake by having a good kidney flushing any time.—Adv.

Covers were laid for ten at a birthday dinner party on Sunday given at the home of Mr. and Mrs. William Seidel and honoring Mr. Seidel's anniversary. Roses formed a beautiful table decoration. The gathering was a family affair.

Mrs. L. G. Keith and daughter, Virginia and Mrs. A. J. Cauble, of Alto Pass, Ill., left yesterday for their home but will visit on the way in Mattoon, Ill., and in St. Louis. The visitors were guests of Mrs. L. S. Scott, of College avenue.

Mrs. Mary Closson of Monroe street, was ninety-one years of age on Sunday and in observance of the anniversary many relatives and friends either called to see her or sent remembrances and messages. Mrs. C. Closson, of New Haven, was one of the visitors.

A few of the young friends of Miss Inez Hartzler enjoyed her birthday celebration yesterday afternoon after school at Miss Inez' home in Washington boulevard west. A beautiful looking birthday cake with a dozen candles and pretty flowers were equally attractive with the substantial food Mrs. Leroy Hartzler, Inez's mother, had prepared. The guests at this good time were: Katherine Hackett, Colette Pierre, Julia Bash, Jane Felix, Virginia Thieme, Louise Metzgar, Grace Hamlet, Isabelle Freeman, Margaret Keegan, Helen Scott, Margaret Heine, Charlotte Auger and Amy Thomas.

YOUNG COUPLE BEGINS HOUSEKEEPING.

MR. VERN GRATTS. MRS. VERN GRATTS.

Don't miss tonight. Trier's, Minuet.

AT THE MAJESTIC.

Blood and thunder action, stirring scenes and interest compelling predicaments, combine to make the melodrama, "Why Girls Leave Home," one of the most thrilling theatrical productions of its character now running. This five act thriller was produced yesterday, matinee and evening, and will be repeated again this afternoon and evening at the Majestic theater by the Oscar F. Cook Stock company. Miss Clara Lewis as Pearl Sherwood, "the girl that left home," is delightfully cast and in the half dozen "strong scenes" demanded of her, rises to the occasion nobly. The road house and the city prison scenes, the latter the one in which the girl that left home turns up just in time to prevent her own brother being convicted of having murdered her, are the best.

"The Dummy" Very Amusing.

The New York Evening Post says of "The Dummy," which comes to the Majestic theater Wednesday, matinee and night:

"Cheerful, lively, clean, well furnished with good lines and unexpected situations, 'The Dummy,' produced last night at the Hudson theater, surprised most agreeably a first-night audience which had faced with some misgiving the prospect of another detective play. The fact is, 'The Dummy,' contrived into a stage piece out of the tales of Harvey J. O'Higgins, is not a real detective play. It is a 'detectuf' play. And there's a vast difference. For a 'detectuf,' obviously, must be a small boy who puts his heart in the business of catching kidnappers and not a mere hireling bravo who puts his brains into it 'that is, assuming that he's got any.' In short, a 'detectuf' story is a sort of fairy story and belongs of full right to the land of make-believe.

"The boy in the case was presented with an admirable effect of boyish intensity from the moment he appeared as a candidate for the office boy's job at the Babbing Detective agency to the other moment when the drop of the final curtain found him eating ham and eggs with magnificent relish and delicacy and declaring that the first thing he'd do with his $10,000 reward would be to 'count it.' Meantime, he had played 'deaf and dumb' (hence the title of the piece,) and rescued the pretty little rich girl from a band of kidnappers almost as harmless as Peter Pan's pirates.'

Miss Clark Wears Cotton Gown at New York Style Show

Miss Genevieve Clark

Washington, D. C., Oct. 12.—A gown of pink cotton lace, worn by Miss Genevieve Clark, daughter of Speaker Champ Clark, was one of the features of the national cotton fashion show recently organized in New York. Miss Clark originated the idea of a cotton week for the whole country, and is one of the most enthusiastic promoters of the campaign for a wider use of cotton in order that the cotton planters can find a market at home for their big crop.

Something doing tonight. Trier's, Minuet.

AT THE TEMPLE.

The Temple's happy combination of acts comprising the first half of the week's bill is batting in the .400 class with local amusement seekers, as the bill from A to Z is a clean cut winner. The peppery Vanis troupe of aerialists score faster than the Boston Braves with their sensational wire act that is done to ragtime. Hurst, Watts and Hurst are three regular fellows with a world of fun and music in their big comedy skit. George Beam and Sylvia Evelyn in the laughing sketch, "Just Like His Father," have been the recipients of scores of enthusiastic endorsements. Eddie Rowley's buck and wing and soft shoe dancing is unquestionably the best effort of its kind that has been in Fort Wayne in years, while Ollie Young and April's great act from toyland is a remarkable feature. The soap bubble blowing that these people do is a distinct novelty. The Strand war time pictures have been exciting an unusual amount of comment showing as they do some scenes on actual battle fields before, during and after the engagements. The bill closes Wednesday night.

Miss Larimore's advanced children's class, Wednesday, 4:30 p. m., 220 W. Berry. 10-3t

AT THE EMPRESS.

Fort Wayne certainly likes the All-American, All-Star, vaudeville bill now on view at the Empress theater. This All-Hit, All-Success bill is the success of the season. Those persons who have not yet seen it will want to embrace the opportunity of viewing it this evening or tomorrow afternoon and evening. The bill closes Wednesday night.

The headline act of this superb bill is presented by Joyce and West, a hand young man and a pretty young woman, who exemplify all the best of the ultra modern dances. "When It Strikes Home," is the best dramatic playlet seen in Fort Wayne in many, many years. It tells a thrilling story of heart interest. The Six Olivers present the best and latest and most novel stunts in an acrobatic and tumbling line. El Cleve demonstrates that he has wonderful ability as xylophone player, while Caine and Odom charm all with their "Song Tailoring" act.

In the Empresscope are seen the latest and best pictures of the European war and the current events of the whole world.

THE ORPHEUM.

LITTLE MARY PICKFORD

Appearing at Orpheum Today in Pleasing Play.

Little Mary Pickford, the daintiest of all moving picture play stars, will entertain the patrons of the new Orpheum theater this afternoon and evening Miss Pickford enacts the leading role in a pleasing play, entitled "Mary's Convert," in which her great dramatic powers are revealed. She is known far and wide to the photo-play goers and her appearance in the local theater is sure to be appreciated.

The fifth installment of that thrilling and spectacular serial, "Trey O' Hearts," entitled "The Sunset Tide," will be the second great offering on today's program. Judith and her men steal one of the steamer's boats and set out in pursuit of Alan and his party, but become lost in the dense fog and are stranded on a rocky part of the coast. As Alan's boat is passing the point some moments later he is hailed and goes to the rescue. Judith, discovering who her rescuers are, ordered them bound and taken down the coast to a den of some river thieves.

The orchestra and Miss Lipps, soprano, have arranged a most pleasing program.

The program tomorrow consists of a three-reel Eclair drama entitled, "The Squatters," featuring Edna Payne and Robert Frazer.

Vapor Treatments for Cold Troubles

Are now used in all hospitals. The vapors carry the medication to the lungs and air passages without disturbing the stomach. When Vick's "Vap-O-Rub" Croup and Pneumonia Salve is applied over, the throat and chest, these vapors—of Menthol, Thymol, Eucalyptol, Camphor, and Pine Tar—are released by the heat of the body. Usually the worst colds go in one night—croup in fifteen minutes. Vick's is fine for head colds, asthma, and catarrh, and is absolutely harmless. Three sizes—from 25c up.

AT THE LYRIC.

High class vaudeville at popular prices, only a few seats selling for an advance over the Lyric's usual picture show fees, is the startling theatrical offer Manager B. H. Barnett of the Lyric theater has found so enthusiastically received by Fort Wayne. The vaudeville program consists of three acts, the only sacrifice being made in the quantity of acts and not in the quality, as is evidenced by the fact that Edith Haney, the Two Canadian Pennies and Sam Kanaoi, the Hawaiian musician, comprise the current bill. Three big pictures are shown in connection with this vaudeville program. The pictures of course change daily with the vaudeville acts moving each Wednesday and Saturday night. Margarita Fischer and Harry Pollard, two of the most popular movie actors that ever stepped in front of a picture machine, will be seen tonight in a laugh-compelling comedy, "Winsome Winnie." Another big two-reel picture booked for today is "The Diamond of Disaster."

LAST YEAR'S GOWN IN THIS YEAR'S STYLE.

Fashion and Economy seem to be "hand in glove" this season.

The woman who feels that she can't afford a new autumn gown can without much difficulty convert her half-worn spring gown into a modish "creation" with a tunic skirt and a waist rejuvenated with a vest of organdie and sleeves of black satin.

If the dress to be remodeled has a straight skirt, and it doubtless has if it is last season's fashion, it may be brought up to date with a flounce or a double flounce of satin, moire or taffeta, the flounces giving it the line of the new Russian tunic.

Satin or silk sleeves are fashion's latest fancy and the material used to make the flounce may be also used to make new sleeves; the waist itself may be recut into a jumper, and a vest of white organdie will give it the right fit at the neck and give the whole dress a touch of up-to-dateness.

Before the old dress is cut into, however, it should be very carefully brushed and sponged or cleaned before you start to make it over. Cleaning will freshen it so that you will feel as if you had a new dress and not a made-over one. Dying is worth considering if the old color is out of style. Hooks and eyes, patent fasteners and buttons should be gone over carefully, frayed skirt braids should be replaced, and worn laces, chemisettes, etc., discarded. You may find that you need a fresh waist lining if the old one is badly worn, too tight at the waist, etc.

LEADERS IN A SUCCESSFUL REVIVAL AT NEW HAVEN.

REV. J. ORR POWELL,

SINGING EVANGELIST ROE.

A very interesting and effective evangelistic service is now in progress in the Methodist Episcopal church in New Haven. The second week of the services is but just beginning and already a great stir is on, and five adults have united with the church.

Rev. C. King is pastor of this interesting and stirring congregation, and all the summer has directed his work preparing for this revival campaign. Last February he secured the services of Rev. J. Orr Powell, of Ossian, Ind., and his assistant, Singing Evangelist Roe, also of Ossian. Mr. Powell possesses traits of adaptation to the evangelistic field, and sees clearly the issues of the local field once he is on the ground.

Mr. Roe as a leader of the singing forces certainly is superior in his fitness, and in New Haven he has already a chorus of voices that rival the best to be found anywhere, and the good part of it is that the young people of New Haven are capable and thoroughly alive to the situation making the very chords of the air vibrant with the power and quality of their music.

Meetings are being held this week and next every afternoon and night. The generous and hearty support given to the meetings by Rev. J. C. Coons, pastor of the Methodist Protestant church, is fully appreciated by the congregation, and many members of that church are nightly adding their share to the work.

Was Well Received.

One of the best entertainments that have been given in any of the churches for some time was rendered Monday evening at the Wayne Street M. E. church when the Epworth league presented Mrs. Almedia E. Waltz in "The Rosary." Mrs. Waltz was well received by the audience that gathered to hear her. Her rendition was pre-eminent and at several times tears could be seen in the eyes of many while at other times laughter prevailed.

INDICTMENT AT SARAJEVO READ

Slayers of Archduke Ferdinand and His Wife Accused.

London, Oct. 13.—(12:10 p. m.)—Reuter's Telegram company has received by way of Amsterdam a dispatch from Sarajevo, Bosnia, saying that the indictment against Gavrio Prinzip, the assassin of Archduke Francis Ferdinand and his wife, together with twenty-one of his accomplices, has been read in Sarajevo.

The men are charged with high treason in connection with the assassination of the archduke. Three other persons have been charged with being cognizant of the plot and of having concealed weapons with which the outrage was perpetrated.

The indictment deals at length with the Servian society called Narodna Odbrana, in Belgrade, which organized the conspiracy; with methods by which the bombs and weapons were smuggled into Bosnia, and relates how the conspirators at Sarajevo recruited their accomplices, distributed their weapons and took their places on the street to await the coming of the archducal party.

Prinzip, under examination, admitted that with a second bullet he intended to kill Field Marshal Oskar Potiorek, the governor of Bosnia, but that he used it for the archduchess.

Finally, the indictment deals with the motive of the outrages and depicts the iredescent machinations for a greater Servia in quarters extending as far as the royal court.

Arguing Motion for New Trial.

Judge Eggeman in the circuit court has put in the day listening to argument of counsel on the defendant's motion for a new trial in the case of Frank J. Shields against the New York, Chicago & St. Louis railroad. Judge Walter Olds, chief counsel for the defendant company, has spent many hours reading to the court voluminous affidavits to show that the plaintiff employed much prejured testimony in the trial of the case last June, when a jury in the circuit court gave Shields a verdict for $10,000 for the loss of a leg when run over by a train at Fulton street in this city. That was the second trial of the case, a jury in December, 1913, having given Shields a verdict of $3,000. Judge Eggeman set that verdict aside as being a compromise. Since the second trial Shields and one of his chief witnesses, a nephew named John Golday, of Chicago, have been arrested on warrants charging them with prejury. Both are now under bonds for appearance in the circuit court, to which they were bound from the city court.

COTTON CROP IS PILED IN TEXAS

Fort Wayne Men Saw Acres of It Ready to Be Stored for Time.

"We saw acres and acres of cotton in Texas," said S. M. Foster, who returned Monday night from a trip to Texas, "and warehouses are being built to house it and the reports coming from the south are not a bit exaggerated.

"Europe has been taking two-thirds of the crop and Europe don't want it now and there is nothing left but to store it and wait. Warehouses are being built as rapidly as possible and the banks at Dallas raised two millions of dollars and the citizens a million more to tide the plantation owners over until they can dispose of their crop."

Mr. Foster was accompanied on his trip south by Arthur F. Hall and Dan B. Nindе of the Lincoln Life Insurance company, and the journey was made to attend a meeting of the American Life association composed of representatives of 104 of the western and southern life insurance organizations.

Mr. Foster stated that none of the members of the party joined the "buy-a-bale-of-cotton" movement in the south and they were not asked to make any purchases.

WOULD CLEAN THE RIVERS.

Chairman F. E. Singrey, of the board of works, favors asking the city council for an appropriation of $500 to cary on the work of cleaning the river beds within the city. With that amount he believes a great deal of work can be done that will operate to prevent high water. The city has obtained little satisfaction from its efforts to obtain from the army engineers permission to work in the river beds, and it is thought there will be no objection to such work as is in mind.

PA AND MA LOOK THEIR SON OVER

Mr. and Mrs. Gowdy See Hank Cut Up in the Third Struggle.

Boston, Mass., Oct. 12.—While Hank Gowdy, the Braves' catcher, by wonderful batting brought his club home a winner Monday, he didn't know that his parents, Mr. and Mrs. Horace G. Gowdy, of Columbus, O., were watching him.

There was a reason. Mrs. Gowdy admitted it after the game. "It always makes Horace (meaning Hank) nervous when he knows we're watching him. So we decided he shouldn't know of our being here. We are going to keep it from him until after the game Tuesday. Then it won't make any difference. We're going home then."

Gowdy's parents arrived here on Saturday. They have been "hiding" at the Adams hotel ever since. The only persons they let in on their secret was Manager George Stallings, of the Braves. He arranged tickets for them and agreed to "keep mum." He wanted to give them a box, but they chose seats back in the stand, for fear Hank would recognize them.

"You see," said Mrs. Gowdy, "Horace likes to please us so well that when he knows we're watching, it makes him nervous for fear he'll make a mistake. We've gone to see him play lots of times since he's been in the National league. At first we let him know when we were at the game, and he always played poorly. So the last few times we didn't let him know. He played a lot better."

Mrs. Gowdy says Hank knows he can't play as well when his parents are looking on. "Before the series he wrote and begged us not to come to the series," Mrs. Gowdy said. "We promised him we wouldn't for fear he'd be nervous. It was the first untruthful word we've told him since we told him of Santa Claus, I guess. My, I know if Mr. Connie Mack had known we were coming he wouldn't have hesitated a minute to have gone right straight and told Horace."

Gowdy senior is an "iron cross" fan. He once played professional ball in Cincinnati. He and his wife refer to Hank as "the boy." "He's what you call a 'home boy,'" Mrs. Gowdy said. "When he's at home he helps me with the dishes and everything. He's such a comfort. Now don't you tell him we're here."

JOE CONELLY IS NOT SHOWING UP

Boston's Only .300 Hitter Has Hit .111 But He Tied the Score.

Evidently the American league brand of pitching is not to the liking of Joe Connelly, Boston's only .300 hitter, and the Central league's only representative in the world series, as his average for the two games in which he has taken part is .111, but he managed to squeeze through a sacrifice fly in the Monday tilt that hooked up the score and made a Brave victory possible.

His work has been watched with some interest in Fort Wayne as he is the only player known personally to the local fans, and they have been pulling for him to show well in the series.

Interest in the outcome was intensified by the victory of the Braves on Monday, and the crowd that watched the returns on The Sentinel score board, where the plays are posted as they are made, and in advance of any other service, has steadily grown and every time Connolly has been up he has been cheered, but the pulling for him has evidently done him no more good than the knowledge, if he ever hears of it, that he still has friends back in the minors who are rooting for him.

Freak bets have characterized the games so far and wagers have been laid on the first run, the first hit and the first everything in each game as it comes up. Boston's play has made the club such an odds-on favorite in the race that it was out of the question Monday before the game started to get any bets on the general results and money that went up was either wagered that Boston would make it four straight or that the series would not go beyond five games. The score of Monday's game follows:

CHANCE TO MAKE MARK IN SERIES

Boston Entered Game With Opportunity to Win Four Straight.

Boston, Oct. 13.—The Athletics of Philadelphia, three times baseball champions of the world, Tuesday were scheduled to fight with their backs to the wall to stave off the rush of the Boston Braves. Defeated in three successive games, one of which will be written large in world's series annals, the American league contenders in the fourth game at Fenway park faced the necessity of winning the next four contests in order to retain their title.

Opposing them with menacing bats and seemingly impervious defense, the Braves, still bent on the compelling dash which carried them from last place to the front of the National league, required only one more game to complete their success with world's series honors. The capturing of four straight games by Boston would create a new world's series record.

It was a desperate situation for the men of Mack. Never in their experience had they been so beset. Desperate measures were necessary.

"The Athletics," said Harry Davis, formerly their captain, and now their coach, "will play as they never did before. would be fatal to the future of the team to lose four straight."

"The fourth game will go the way of the other three," predicted George Stallings, manager of the Boston team. "The Braves will be world champions by night. I truly believe the Braves cannot be stopped."

Rudolph and Bender Probable.

Players on both sides expressed the belief before the game that Rudolph and Bender would oppose each other in this crucial test. Both managers maintained their policy of masking their batteries until just before the games, but the names of these two men constituted an open secret. Rudolph pitched Boston to victory at Philadelphia last Friday in the first game of the series in which Bender was forced from the box by the bombarding Boston batsmen.

The Indian, of noted craft and stout heart, was considered the best possible reliance of Manager Mack in his team's extremity. Veteran that he is, Bender has not lost his cunning, and three days of rest were believed to have restored the strength that he expended in his vain efforts of Friday. Rudolph, although small of stature, is a giant in rank as a pitcher. He is coolest under the fiercest fire, and his splendid control, sharp breaking spitter and clever change of pace are of proven worth against the Mackmen.

Strunk Forced to Quit.

Philadelphia in its hour of need, suffered an unexpected handicap. Amos Strunk, the center fielder, who alone of the once great batting team had lived up to form, was forced out of the remainder of the series. A boil on a finger of his right hand prevented further participation. Walsh played in his place Monday and will continue in the line.

Boston's formal array was unchanged. Principal in this, the Athletics have found, is tow-headed "Hank" Gowdy, who, in this series, has supplanted Frank Baker as a long distance hitter. No player who has ever taken part in a world's series has equalled the record of Gowdy, whose batting won Friday's game and prevailed again in Monday's contest.

Although the Athletics Monday recovered some measure of their batting strength, they were still far from their true form. The slump was a matter of deepest concern to the Philadelphians. They point out that in fielding they excelled the Boston team by .909 to .908 in the three games thus far, and to their falling off in hitting alone do they attribute their three failures. The team has batted for an average of only .155 in three games, in which they averaged five hits a game.

After today's game the players cease participating in the world's series proceeds. Receipts for the first four games probably will total $225,000, on a total attendance of 110,000. The players' share of the money will be about $115,000, considerably less than two years ago, and somewhat less than last year.

Weather conditions continued excellent. The air was somewhat cooler than yesterday and light clouds flecked the sky.

SCHERER AGAIN MANAGER.

Arnold Scherer, who had a most successful season last winter as manager of the St. Paul basketball team, has been selected by the athletic board to manage the club again during the coming campaign. The selection was made at a meeting Monday night.

BUYING ARMY SUPPLIES.

English and French Making Purchases at Chicago.

Chicago, Oct. 13.—Negotiations for the purchase of several thousand army wagons, one million blankets, 200,000 saddles and bridles and a large supply of rifle cartridges for the use of the English and French armies were opened here today by representatives of those governments.

Representatives of the army purchasing departments asked for immediate bids on the wagon contracts as a large number are wanted for quick delivery in Canada, it was said. The remainder are to be delivered at future dates. Immediate delivery of blankets is demanded by the purchasers as they are wanted for the use of the troops in this winter's campaign.

FIGHT IS DESPERATE ALL ALONG THE LINE

Paris, Oct. 13.—The efforts of the Germans who are fighting hard in an endeavor to effect a turning movement to the north of the long battle line in France continue to hold the interest of the observers of the war. According to an official announcement German cavalry some days ago had advanced in the west to as far as Cassel (27 miles northwest of Lille). These German forces now, however, are said to extend only to Hatobrouck (five miles south of Cassel).

If this should be true it is considered that it will make somewhat greater the difficulties of the Germans in bringing success to their efforts. This section of the war zone continues the scene of particularly violent actions, the opposing squadrons fighting desperately to gain the slightest advantage on which so much may depend.

The Germans at the same time are not lessening their attempts to find at other points on the battle line weak spots in the allies' front. All their efforts, it is said, are being met successfully by their French and English opponents.

The latest German flag captured by the French belonged to an active regiment, which was part of the corps stationed at Stetting. This fact, according to the French, indicates that the Germans have concentrated on the French frontier forces which ordinarily would be assigned to guard the Russian border.

The withdrawal of the Germans from the vicinity of Verdun, as officially indicated, has been well received by the French. It is taken to show the further disengagement of the enemies' forces operating around the great French fort on the Meuse, and which is regarded in Pasis as the retiring of the enemy toward the frontier.

WOULD TEAR OUT DAM IN ST. JOE

Traction Company's Barrier Interferes With Tapp on Wall Work.

Following an appeal from Herman W. Tapp, of the Tapp Construction company, for removal of the Fort Wayne and Northern Indiana Traction company's dam in the St. Joe river at the power station because it is causing high water that interferes with work on the Spy Run avenue retaining wall, City Engineer Randall called General Manager Sam W. Greenland into conference Tuesday afternoon to learn what can be done. The dam was built by the traction company to maintain a sufficient stage of water in the river to insure a supply for the condensers of the big turbines in the company's power plant. Contractor Tapp, who is building the Spy Run wall, has been compelled to suspend operations because of high water and he believes that if the dam were temporarily removed he could keep on with the work.

It was considered doubtful if the traction company would consent to wreck its dam.

BOARD OF WORKS ROUTINE.

The board of works at Monday's meeting ordered the engineering department to prepare plans for paving the alley between Kinnaird and Packard avenues, from South Wayne avenue to Indiana avenue, and received a report from the Indiana Engineering and Construction company that the cement sidewalks on Monroe street, from Washington to Madison, were completed.

CROOKED SCALE CONDEMNED.

City Sealer C. B. Tolan on Tuesday morning condemned a crooked scale that was being used by a rag buyer at Main and Barr streets. It was of the "bulldog" pattern and is the ninth scale of that type seized by the sealer.

ORDERS FORCE DOUBLED.

Work on Rudisill Boulevard Water Main to Be Rushed.

The board of works has given orders to Superintendent G. B. Porsch, of the waterworks department, to double the force he has at work laying the new 12-inch water main on Rudisill boulevard and thirty or more additional men will be put at work immediately. The main has been installed from Indiana avenue to Hoagland avenue, and will be carried to Lafayette street. Some of the trenching goes to a depth of seven feet and the board is demanding a larger force that the work may be completed promptly. The main when completed will afford great relief to the No. 2 pumping station, which has had a heavy pressure to contend with in forcing water through the 8-inch main that the new main is replacing. The new main will afford a more abundant supply to a large region.

During the present year the board of works has purchased 700 tons of iron pipe for the waterworks department and that has not met the demand for extensions of the public water service.

BOARD OF WORKS ASKS MONEY.

Appropriations to Complete the Year Are Sought.

Pursuant to a request from the board of works, Controller W. C. Baade will send to the city council Tuesday evening an ordinance appropriating $7,050 from the general fund to various accounts whose funds are about exhausted. The money is needed to complete the present year, at the end of which the 1915 appropriations will legally be available. The board wants $5,000 added to the sewer repair account in order to pay for the cleaning of the intercepting sewer, which is now undergoing its first renovation since it was built, thirteen years ago. The garbage disposal account needs $1,000, the city hall account $1,000 and the furniture and fixtures account $50.

DIPHTHERIA IS SPREADING.

The effect of the opening of schools on childhood contagions is shown in the fact that there are seventeen cases of diphtheria under quarantine by the health department. There is very little scarlet fever in the city. The following new cases of contagion are recorded:

Lavon Dodane, aged 8 years, 2421 Lafayette street—diphtheria.

Melair Zroehl, aged 9 years, 720 Colerick street—diphtheria.

Martha Maure, aged 6 years, 3061 Warsaw street—diphtheria.

Clarence Kaliker, aged 7 years, 432 Colerick street—diphtheria.

Ruth Farley, aged 18 years, 240 Douglas avenue—diphtheria.

CONCRETE SLABS ARE LOADED.

The contractors for the Wabash bridge at the Harrison street subway have completed the work of loading the massive forty-ton slabs to be used in the bridge and have removed the north track from the elevation. The slabs will be placed at once and the bridge completed. The board will crowd the Moellering Construction company to get the city's portion of the subway work completed.

NEW RESOLUTION TO GO IN.

The city council Tuesday evening will consider a new resolution authorizing the Wabash railroad company to lease to the Fort Wayne Electric works a portion of the ground donated to the railroad by the city many years ago for shop purposes. The electric works wants the ground as a site for a mammoth building to be used as warehouse and shipping station, and expects to spend nearly half a million dollars on it. A former resolution of the same purport was passed but was rescinded because it did not adequately protect the rights of the city and the railroad.

MUST PAY FOR WIDENING STREET.

The city council Tuesday evening will receive from the committee on contracts and franchises a report to the effect that if the Fort Wayne & Northern Indiana Traction company is given a franchise to lay a double track on Calhoun street from Creighton avenue to Pontiac street it will have to pay for widening the street two feet on either side and paving the additional width.

ELIZA STREET IS PAVED.

The Moellering Construction company has completed paving operations on Eliza street and the work on that thoroughfare is now ready for inspection. The Moellering construction gang has been taken from Eliza street to reinforce the men at work on the Maumee avenue pavement, which it is expected will be completed not later than next Saturday.

BOSTON BRAVES NOW WORLD'S CHAMPIONS

sharp wind from the east and the spectators shivered at times in the stands.

Made It Another Holiday.

Boston made it another holiday today. Thousands took the day off and thronged to Fenway park hours before the gates were opened. Nearly every seat in the unreserved stand was filled at noon and hundreds stood up against the fences. Reserved seats sold at a premium.

More than 30,000 persons were in Fenway park by game time. There was little betting on the series as the large majority of the "fans" said Boston was a sure winner and no one wanted the short end. Wagers were made at 10 to 9 that Boston would capture the contest today.

Batting and fielding practice kept the crowd on the keen edge of enthusiasm for two hours before the game. Flushed with victory, the Bostons went about their work with a spirit that showed their intention of trampling over their foes today with all speed and dispatch.

The Athletics also warmed to their work and their infield showed some sterling practice with bat and ball. Gowdy, batting hero of the series, tickled the home folks with some long drives into the stands.

Mack Springs a Surprise.

To the surprise of the spectators, Manager Mack sent Shawkey to the mound for Philadelphia, instead of Bender, the Indian, whom it had been supposed would be the pitching selection for the day. Rudolph was the Boston pitching performer. The line-up for today:

Braves—Moran, rf; Evers, 2b; Connelly, lf; Whitted, cf; Schmidt, 1b; Gowdy, c; Maranville ss; Deal, 3b; Rudolph, p.

Athletics—Murphy, rf; Oldring, lf; Collins, 2b; Baker, 3b; McInnis, 1b; Walsh, cf; Barry, ss; Schang, c; Shawkey, p.

Umpire Byron gave the decisions behind the plate; Hilderbrand on the bases; Klem in left field, Dineen in right.

Clearing, But Chilly.

It began to clear a little about 1 o'clock and the sun broke through the clouds, but it was still cold and the players had to work fast to warm up. In the Boston's batting practice Tom Hughes used his fast ball in order to accustom the home club to Bender's speed. Both Rudolph and James took part in the batting practice.

John Coombs took the pitching slab for the Athletics, when they took their batting practice. They went after the ball in smart fashion and shot his drives in all fields.

Rudolph and Whaling were marked up for Boston, while Manager Connie Mack caused a general surprise by sending Bob Shawkey out to warm up with Jack Lapp.

TWO JUMP TO FEDERALS.

Perritt and Wingo, of St. Louis Nationals, Go to Pittsburg.

St. Louis, Mo., Oct. 13.—W. D. Perritt, pitcher, and Ivy Wingo, catcher of the St. Louis Nationals, have quit organized baseball, according to an afternoon paper today, and have signed or will sign with the Federal league.

Wingo left here last night for Cincinnati. Before leaving he refused twice to talk terms for next year with Manager Huggins. Perritt also had evaded a meeting with Huggins. It is understood he has signed with the Pittsburg Federals. Other players in the local National league who have not signed for next year are Albert J. Dolan, left fielder; Dan Griner, pitcher; Richard Niehaus, pitcher, and Patrick O'Conner, catcher.

Another afternoon paper says Perritt has signed for three years with the Pittsburg Federals; that he received $3,500 in advance; that Wingo has signed with the Buffalo Federals for $6,000 a year and that he received $3,000 in advance. This paper quotes Perritt as follows:

"I drew $3,000 from the Cardinals this season. The Pittsburg Federals have offered me more than that as bonus money. I signed with Rebel Oakes in Philadelphia on Sept. 20."

Wingo is quoted as saying: "I signed with the Federals in Pittsburg on Sept. 29."

MANY DELEGATES REACH THE CITY

badges. Everything is in readiness for the opening meeting at 8:30 tonight in the ball room of the hotel. The state regent, Mrs. Frances H. Robertson, will call the meeting to order. Rev. H. B. Master will pronounce the invocation and Miss Margaret Vesey will give the address of welcome. Mrs. W. A. Cullop, of Vincennes, will respond to Miss Vesey's welcome. James Hagar Haberly will give a welcome from the Sons of American Revolution chapter, to which Mrs. John Lee Dinwiddie, vice president general for Indiana, will respond. There will be music by local musicians interspersing the program.

Mrs. Bassett Here.

The chief address of the program will be given by Mrs. Charles W. Basset, of Baltimore, Md., who was one of the first visitors to arrive this morning. Mrs. Bassett is historian general for the National Society of the Daughters of the American Revolution, and with her mother and sisters were among the founders of the society, which is not yet a quarter of a century old. But in spite of the many things Mrs. Bassett has done and is doing, for she is a farmer, is president of the Woman's Exchange in Baltimore—with over two hundred consignors weekly—has a home with husband and daughter, she has enough enthusiasm left to scatter at every meeting or convention of the D. A. R. she attends.

"I believe," said Mrs. Bassett this morning, "that the two vital things of the organization of Daughters are research and conservation. Both are so important a work as well as one of so much interest, that once women take hold of it, they will not let go. When I went to Vassar," remarked this cultured and versatile woman, "from which I was graduated in 1883, there was no chair of history. I believe it is a mistake to not devote more time to the teaching of modern history and less to that of ancient times. We looked upon the founding of the society of descendants of the revolutionary days as almost a sacred thing. We had a feeling of conservation to the memory of the men who had given to us the liberty we enjoy at the awful price of war. Now I feel sometimes that there is a lack of appreciation for patriotism and for the preservation of early historical facts."

Is Candidate for Regent.

Mrs. William A. Cullop was another of the early arrivals this morning. Mrs. Cullop is an avowed candidate for state regent. Mrs. Cullop founded the Frances Vigo chapter in her home town and is working hard to preserve historical landmarks in the old and famous Indiana city. Mrs. Cullop is vice regent for the Indiana state society and has been devoted to chapter work in her home town and faithful in attending meetings of the state organization wherever held. It is likely that if Mrs. Cullop should be honored with the election to the regency, the Vincennes delegation would extend an invitation to the Indiana society to meet there at its next annual conference. Mrs. Cullop is a guest of Mary Penrose Wayne chapter at the Anthony.

Mrs. Beck Arrives Tonight.

Mrs. Henry A. Beck, of Indianapolis, who has been prominently and frequently mentioned in the state as a possible candidate for the state regency, arrives this evening and will be a guest at the home of Mrs. Charles B. Fitch. Mrs. Beck is a great worker in Indiana as well as national historic work and her charming personality and culture have won many warm friends who hope for her election.

Wednesday's Program.

The program at both sessions on Wednesday will be given principally to reports from the chapters of the state. Mrs. Frances H. Robertson, who will retire from a three years' successful service as state regent, will give her report early in the session. Miss Emily Goldthwaite will report on the twenty-third continental congress, Mrs. M. C. Garber on conservation, Mrs. Newberry Howe on the reciprocity bureau. Mrs. Robertson will appoint conference committees, there will be music, and a visit to the relic room in the Allen county court house. At luncheon at the Anthony hotel the delegates will be guests of Mary Penrose Wayne chapter. In the afternoon Mrs. Martha B. Hanna will report on welfare women and children. Mrs. W. W. Gaar on "Old Trail Roads," Miss Mary Alice Warren on "The Magazine," Mrs. Rose Budd Stewart on "Children of the republic," Mrs. W. H. Moore on "Children of the American Revolution" and Mrs. Arthur Brady on the state memorial committee work. There will be two addresses in the afternoon, one by Mrs. W. B. Neff, of Cleveland, on "The Girls' Homemakers Club," and one by Mrs. E. C. Atkins on "The Times." Mrs. Atkins is regent of the Cornelia Cole Fairbanks chapter. Dinner at 7 o'clock at the hotel will be followed by a reception at the home of Mrs. Robertson at 8:30 for the delegates, visiting daughters, chapter members and their husbands. The reception is given by the local chapter.

MARITZ LEADS A REBELLION

(Continued From Page 1.)

union; whereas, these efforts have so far succeeded and that Lieut. Col. Solomon Gerhardus Maritz, together with one of his officers and a portion of the forces under his command, has shamefully and traitorously gone over to the enemy and is now in open rebellion against the government and the people of the union and is, in conjunction with forces of the enemy, invading the northern portion of the Cape province.

"And whereas, there is grave reason to think that the government of German Southwest Africa has, through its numerous spies and agents, communicated with and corrupted also other citizens of the union under the false and treacherous pretext of favoring the establishment of a republic in South Africa, and,

"Whereas, the government of the union considers it necessary to take effective measures to protect and defend the interests of the union and its loyal and law abiding citizens against these insidious and treacherous attacks from within and without, and to that end to declare martial law."

Continuing the proclamation states that the whole union of South Africa is under martial law as understood and administered in time of war, and dating as of today.

The proclamation is signed by Lord Buxton, governor general of the union, and countersigned by Gen. Smutz, minister of defense.

Has Been Brewing.

The rebellion among the forces of the northwest Cape province has been brewing since the resignation of General Beyers as commander in chief of the union forces. As soon as the government realized this situation it sent Col. Britz to relieve Maritz of his command. Col. Britz then discovered that Maritz was commanding German troops as well as his own and that he had German guns in his possession. Maritz, who had been given the German rank of general, had arrested those of his officers and men who were unwilling to join the Germans and had sent them as prisoners of war to German Southwest Africa. According to an official statement, an agreement was drawn up between Maritz and the governor of Southwest Africa guaranteeing the independence of the union as a republic, ceding Walfish bay and other parts of the union to the Germans and undertaking that the Germans should invade the union only if Maritz asked them to do so.

Maritz boasted that he possessed large supplies of guns, rifles, ammunition and money obtained from the Germans and that he would overrun the whole of South Africa.

"In view of this state of affairs," concluded the official statement, "the government is taking most drastic steps to quell this rebellion and punish all rebels and traitors according to their deserts."

BELGIAN CAPITAL GOES TO FRANCE

Bordeaux, France, Oct. 13.—(11:50 a. m.)—It has been decided to transfer the Belgian government to France, in order that it may have full liberty of action.

The foregoing was announced officially in Bordeaux today. Several Belgian ministers, accompanied by a group of officials, left Ostend this morning for Havre, where the French government has prepared temporary offices for them.

King Albert remains with the Belgian army.

Tokio, Oct. 13.—During an armistice yesterday on the battle front of Tsing-Tau twenty-two German defenders of the fortress were buried. The fortress fired 1,500 shells daily.

London, Oct. 13.—A letter received in Amsterdam from Dusseldorf says the Daily Chronicle Amsterdam correspondent declares that in the recent British aeroplane raid on Dusseldorf, besides a Zeppelin airship being destroyed, four persons were killed and many wounded.

London, Oct. 13.—A dispatch to the Times from Ostend says that a German aviator dropped two bombs on Ostend Monday. Neither of the missiles exploded. The correspondent adds that the Germans occupied Ghent at 7 o'clock Monday morning and that refugees from that city are coming into Ostend.

SAYS PROOF IN CASE IS CLEAR

(Continued from Page 1.)

proves more, namely, that Belgian neutrality practically did not exist and that the Belgian government was conspiring with the allies against Germany. Notwithstanding the denials coming from French sources, it is a fact that the French prisoners were taken at Liege and at Namur, who acknowledged that they had been in those fortresses before the German troops entered Belgium.

"On the French side it has been asserted that the German chancellor in parliament had acknowledged that Germany was doing wrong in violating Belgian neutrality. It must, however, not be overlooked that the chancellor said: 'We know that the allies do not intend to respect Belgian neutrality and Germany in the position she is in, attacked from three sides, cannot wait whilst the allies can wait;' at the time the Belgian archives were not at the disposal of the German government.

"If the chancellor had known at the time he made his speech that Belgium was not neutral he would certainly have spoken of the alleged Belgian neutrality in a different way.

"Germany has violated the frontiers of no really neutral country whilst the allies are on record for disregarding all obligations toward China."

MANY YEARS A WABASH AGENT

M. S. Hargrove Dies Tuesday at His Home in Huntington.

The local Wabash freight men were notified Tuesday morning of the death at Huntington of M. S. Hargrove, which occurred at 4:45 o'clock, after an illness with heart and kidney trouble of two years. Mr. Hargrove was the passenger and freight agent of the Wabash at Huntington for about fifteen years. Previous to that service he was the agent at Andrews and later at New Haven, his service as freight and passenger agent with the company extending over a period of thirty years. He is survived by a widow only, there being no children.

The funeral will be held Thursday morning at 9 o'clock from the Catholic church in Huntington and will be generally attended by the Wabash agents of the Peru division.

TROUBLES OF CLAIM AGENT.

Damage to Property Boosts Its Value to Owner.

(Cleveland Plain Dealer.)

Probably least heard of by the public, yet one of the most important railroad officials is the claim agent. His duties are to settle all claims for compensation for personal injury, death, damage or loss of property.

Sherlock Holmes, with the proper experience, would have made a good claim agent. He had the faculty of putting two and two together.

All claims are thoroughly investigated. Some are found legitimate. They are settled. Others which after investigation do not prove that the railroad was at fault, or are misrepresented, are disregarded and if not dropped by the complainant, are fought out in court.

Some of the ruses adopted in efforts to collect damages, uncovered by railroad claim agents, are interesting.

"You would be surprised how quickly the value of damaged articles increase when claims are presented," says a Cleveland claim agent. "The average increase is about 100 per cent."

A few years ago a train hit a cow belonging to a farmer. A claim agent who happened to be aboard, knowing how cows increase in value when killed by a railroad, hurried across the fields to the farmer's house to ascertain the value of the animal before it entered into rest.

Representing himself as a tax assessor, the agent asked the farmer if he was the owner of a big red cow, and if so, what value he placed upon it.

"Oh, not more than $5," replied the farmer. "She's old and ain't much of a milker. Five dollars is a good price for her."

Told the visitor would give $10, the farmer said he didn't care to sell her because she had been upon the place a long time, but that she wasn't worth more than a five-dollar note.

Then the claim agent explained that a train had killed a cow and that to ascertain the real value of the animal, in the interest of his employer, he had represented himself as an assessor. He added on leaving that a check would be forwarded the farmer for $10.

Claim agents, be it said, do not relish "being shrewd" and as a rule prefer to deal openly and frankly with the public.

One railroad experienced much trouble with a farmer on its route. At frequent intervals reports were made to the company that trains were killing hogs.

After several hogs were struck information was obtained that the animals had died of cholera and after death had been placed on the track.

The farmer collected no more.

HOW TO BANISH WRINKLES QUICKLY.

If the average woman only knew it, it is not at all difficult to preserve the youthful contour and velvety smoothness of complexion. Every woman hates to see her face wrinkled or baggy, and practically every one has experimented with some sort of patent remedy in the effort either to remove such condition or ward it off.

As a matter of fact, the most effective remedy in the world is one that any woman can easily make up herself at home, in a moment's time. Let her take one ounce of pure powdered saxolite, which she can purchase at any drug store, and dissolve it in a half pint of witch hazel. Apply this harmless and refreshing solution to the face every day. The results are surprising—and instantaneous. Even after the very first application a marked improvement is apparent. The wrinkles are less in evidence and the face has a comfortable, snug feeling of firmness that is most delightful.

$3.60 PER WEEK THE LOWEST.

Some Girls in Fort Wayne Get Small Wages.

Through the report of committees at the meeting of the Fort Wayne Federation of Labor last night, it developed that the minimum wage of girls in Fort Wayne was $3.60 per week. This information was obtained through a federal investigator who was here some time ago looking into this and kindred matters.

The report of the finance committee on the late State Federation meeting in Fort Wayne developed the fact that there was a cash deficit of $17.55, but that this sum was more than offset by the sale of tables for $101.20, thus leaving a net surplus. The cash receipts were $425 and the expenditures $442.55. Other business transacted included a resolution calling President Wilson's attention to the fact that the United States Marine band was competing with civilians in a business way and requesting that it be stopped; notebooks were ordered for delegates to the federation to facilitate reports; Secretary J. J. Perrey was instructed to send a letter of thanks to the Commercial club for its co-operation in entertaining the delegates at the convention; the Cooks and Waiters were commended for their success and promised the assistance of the federation and Chairman J. E. Wolf, of the convention hall committee, that the committee would meet with the Commercial club tonight.

HEARS FROM HIS BROTHER.

Factory Superintendent E. A. Barnes, of the Fort Wayne Electric works, was relieved of a great anxiety Saturday by receipt of a letter from his brother, Major A. A. S. MISSIONARIES AT DETROIT.

Tenth Annual Meeting of American Board in Session.

Detroit, Mich., Oct. 13.—More than 1,300 missionaries and laymen from all parts of the world are in Detroit to attend the tenth annual meeting of the American board of commissioners for foreign missions which began today and will continue four days.

Perhaps the greatest task confronting the commissioners is to solve the problem of foreign missions' work raised by the European war. It is admitted that missions in many countries will face danger of annihilation or serious setbacks. One of the most disastrous effects from a missionary standpoint will be the impression it may make on non-Christian minds.

CHICAGO GRAIN AND PROVISIONS.

Chicago, Oct. 13.—Reports of liberal European buying at Kansas City helped bring about an advance here today in the wheat market. After opening unchanged to ⅛c higher, prices made a general all around upturn.

Wet weather, likely to delay the movement of the crop, put strength into the corn market. The opening, which ranged from ⅛c to ⅜c higher, was followed by a moderate additional gain.

Oats hardened with other cereals.

Lower prices for hogs carried provisions down grade.

Moderate temperatures have continued over the central and eastern states, but cooler weather is spreading southeastward from the northwest. Heavy to killing frosts with freezing temperatures are reported from the middle and northern Rocky mountain region, Nebraska, the Dakotas and northern Minnesota, while light frosts are reported as far southeastward as Kansas City.

Rain and cooler weather is indicated for this section for tonight. Wednesday will be partly cloudy and continued cool. It is probable that the rainy, cloudy weather will prevent any damaging frost in this section tonight.

GRAIN MEN WILL FIGHT WAR TAX

Crawfordsville Man Leads Effort in National Convention.

Kansas City, Mo., Oct. 13.—A nationwide fight on the proposed war tax of 1 per cent on every $100 grain transaction was started at the eighteenth annual convention of the Grain Dealers' National association here today when A. E. Reynolds, of Crawfordsville, Ind., presented a report of the legislative committee and it was adopted unanimously. A telegram was sent to President Wilson which set forth the attitude of the grain dealers. Mr. Reynolds pointed out that the proposed tax of 1 per cent would subject the same grain to repeated taxation and that under the plan there was no limit to the amount the government might tax a single shipment.

The tax, it was asserted, would paralyze the grain market. As a substitute, the dealers favored a tax on telegraph messages, bills of lading and other direct taxation which would affect them but which would be definite in scope.

A note of alarm against what was termed the "socialistic tendencies of the present day" was contained in the annual report of Charles Quinn, of Toledo, O., secretary of the association. Mr. Quinn called particular attention to the flood of measures regarding the grain trade.

John Nendiff, a foreigner, was fined $1 and costs in the court of the justice of the peace on the charge of assault and battery upon John George.

We all live and learn and the longer we live the more we learn. Twenty years ago coal was poorly prepared. Now we have the Spiralized Red Hornet which takes out all the slate and dirt and makes it as clean as Hard Coal; burns very nicely, and keeps fire all night.

Preparation is what makes good coal. The Spiralizing is a new process and makes this coal perfectly clean. This coal comes in Egg, No. 4 and Chestnut. We invite the public to give this coal a trial.

ADULTEROUS PAIR NABBED BY COPS

Woman's Little Girl Was in Same Room With the Offenders.

Henry Burk was fined $15 and costs and given fifteen days in jail and Mrs. Carrie Connors was continued under $200 bond until Wednesday at conclusion of a hearing in city court, where the pair were arraigned on charges of adultery. They were taken from a room at 120 West Jefferson street near midnight Monday by Officers Hall, Smith, Brown and Harber, after Officer Hall had kept the place under surveillance for a time. Both pleaded not guilty and told a frazzled story of the woman's fear of prowlers and the man's knightly purpose to afford her protection. The case was greatly aggravated by the fact that the woman's 12-year-old daughter was occupying the same room with the pair. A bed had been made on the floor for Burk, who was partially divested of his apparel when the officers entered. Mrs. Connors refused to open the door and it was broken open. Mrs. Connors was arrested and fined last April on charges of keeping a disorderly house and Burk had been in police court previous to this time. The case of the little girl will be placed before the board of children's guardians.

Wife Fears Husband.

Charles Leazier was arraigned on surety of the peace proceedings begun by his wife, Lena Leazier, who said she feared for her life because her husband threatened her and had been prowling around her apartments on West Jefferson street. They have been married thirty-two years and the woman said that of ten children born to them eight were living. She has a suit for divorce pending in the superior court, from which had been issued an order restraining Leazier from molesting his wife. Judge Kerr held that the proper recourse was in the superior court and he refused to put Leazier under bond to the circuit court.

Other City Court Cases.

John Moose, the stage name of an Indianapolis man who is celebrating something or other with a merry time in Fort Wayne, was arrested Monday for being drunk. He forfeited his cash bond of $11. He was arrested last week and paid a fine of $1 and costs for drunkenness.

Tom Rafter, a drunk, was still too much inebriated to be arraigned and was continued until Wednesday. Evert Brouer, another drunk, was turned loose.

Charges of neglecting his children, which have been pending against William Ward, were dismissed on motion of the prosecuting attorney, it being shown that he is now making regular payments.

The case against Leonard Benworth for loitering was continued until October 17 and he was put under $50 bond. He is an 18-year-old boy who recently returned from the boys' school at Plainfield and is accused by his grandfather, who resides in the country, of stealing some money.

Rheumatism

A Home Cure Given by One Who Had It

In the spring of 1893 I was attacked by Muscular and Inflammatory Rheumatism. I suffered as only those who have it know, for over three years. I tried remedy after remedy, and doctor after doctor, but such relief as I received was only temporary. Finally, I found a remedy that cured me completely, and it has never returned. I have given it to a number who were terribly afflicted and even bedridden with Rheumatism, and it effected a cure in every case.

I want every sufferer from any form of rheumatic trouble to try this marvelous healing power. Don't send a cent; simply mail your name and address and I will send it free to try. After you have used it and it has proven itself to be that long-looked-for means of curing your Rheumatism, you may send the price of it, one dollar, but, understand, I do not want your money unless you are perfectly satisfied to send it. Isn't that fair? Why suffer any longer when positive relief is thus offered you free? Don't delay. Write today.

TAKES PRISONER FROM SHERIFF.

Masked Man Take Law Into Own Hands at Percy, Ill.

Percy, Ill., Oct. 13.—An armed body of masked men stopped Sheriff Bresner of Willisville, on the road last night, took Albert Ciazza, his prisoner from him, shot and instantly killed Ciazza and warned Bresner away. Ciazza was an Italian miner, one of two brothers who engaged in a revolver fight with two American miners, Willis Adams and Ben Cooper. The fight occurred last night and began over a request for a cigarette. When it ended, Sam Ciazza was dead and both the American miners badly wounded.

Sheriff Bresner was on his way to the county jail at Pinckneyville last night with Ciazza when the masked men sprang from the roadside. Three held the sheriff while others marched the Italian ten paces down the roadside and shot him down. There were 16 wounds in his body.

The maskers then warned the sheriff not to follow and vanished into the woods.

The trouble had its inception in ill feeling that has existed for some time between the foreign and American miners.
